## 1. Introduction

Land for New Homes is Stafford Borough Council's annual Housing Monitor. The Housing Monitor provides an analysis of the provision and delivery of new dwellings given planning permission by Stafford Borough Council. This is done in accordance with the new Local Plan, which provides policy and guidance for determining planning application permissions.

Land for New Homes identifies sites with extant planning permissions as of 31 March each year to analyse the current housing provision in terms of completions and commitments. It should be noted that this document is different to the Council's '5 Year Housing Land Supply Statement' which identifies the supply of deliverable housing land for the next five years, based on planning commitments.

In terms of the availability of further information on housing matters, the Stafford Borough Council Housing Strategy and associated documents provide broad background information on tenure types and broader housing related issues, which inform the Local Plan, whilst a Strategic Housing Market Assessment (to provide an assessment of the Borough's Affordable Housing requirements), a Five Year Housing Land Supply Statement, a Strategic Housing and Employment Land Availability Assessment (SHELAA) and a Gypsy and Traveller Accommodation Assessment (GTAA) of the Borough are also prepared by the Council. Collectively, these documents - in association with this Housing Monitor - constitute the Borough Council's corporate approach to housing policy and related issues.

## 2. Housing Monitor Methodology

The Housing Monitor database is compiled from a number of sources in order to identify:

- The number of dwellings built during the previous twelve month period (1 April 2019 – 31 March 2020), and those built cumulatively since the commencement of the current Local Plan period in 2011;
- The total number of dwellings which could be built by virtue of having permission for residential development;  
**NB:** Section 106 – a separate count is taken of sites where there has been a resolution to grant consent subject to completion of a Section 106 Agreement, but where the Agreements have yet to be completed. These sites are grouped together within Appendix B;
- The outstanding number of dwellings which have been granted planning permission, but which have not yet been completed (firm commitments).
- Sites which are allocated through the Local Plan but have not been granted planning permission are excluded from the Housing Monitor analysis. However, details of these allocations are set out in section 5.

Section 3 of this document identifies the net number of completions for 2019-2020. Section 4 and beyond sets the net number of commitments. C2 residential accommodation figures are included throughout, but a discount has been applied to bedroomed development completions and commitments (see Appendix C). This is to reflect the fact that a proportion of bed spaces in residential homes are likely to be taken up by individuals who do not release their previous dwelling for occupation by a separate householder.

Using the data collected in sections 3 and 4, the Housing Monitor 2020 presents analysis of completions and commitments by:

- Year, geographical location, “origin” of commitment (i.e. whether it is an allocated or a windfall site) and “type” of site (i.e. whether the site is Greenfield or Previously Developed Land).

In section 6, the Housing Monitor 2020 also presents analysis of new windfall permissions granted 2019-2020 (i.e. dwellings on sites not allocated in the Local Plan) by:

- Geographical location and site “type”.

All of the data collected in order to undertake the analysis set out in the Housing Monitor 2020 is provided in Appendices A to C. This comprises lists of all sites with a valid planning consent has completed this year, has yet to be fully implemented and / or has not lapsed, as well as those sites approved in principle but which are being held in abeyance pending the signing of requisite Section 106 Agreements.

The information is taken from selected fields in the Council's Planning Application System database. The listings in Appendices A to C show for each site:

- Site Type i.e. "Greenfield" or "Previously Developed Land"
- Planning consent details i.e. application number, type and approval (decision) date
- Description, Tenure and Type of the proposal
- Capacity of site with planning consent
- Total completions delivered on the site to date (which include completions in previous years)
- Balance remaining to be built on those sites
- The number of net completions in the monitoring year

Each time the Housing Monitor is produced it updates the preceding one by:

- Adding in new permissions given in the subject year (April 1 – March 31)
- Removing lapsed permissions (permissions previously granted but not implemented and during the year under consideration the permission expired);
- Identifying and recording the number of units on each site which have been built, together with a "running total" of completions (where appropriate) on those sites that are under construction;
- Removing sites from the list that have been fully completed in the previous year.

### **Site Types**

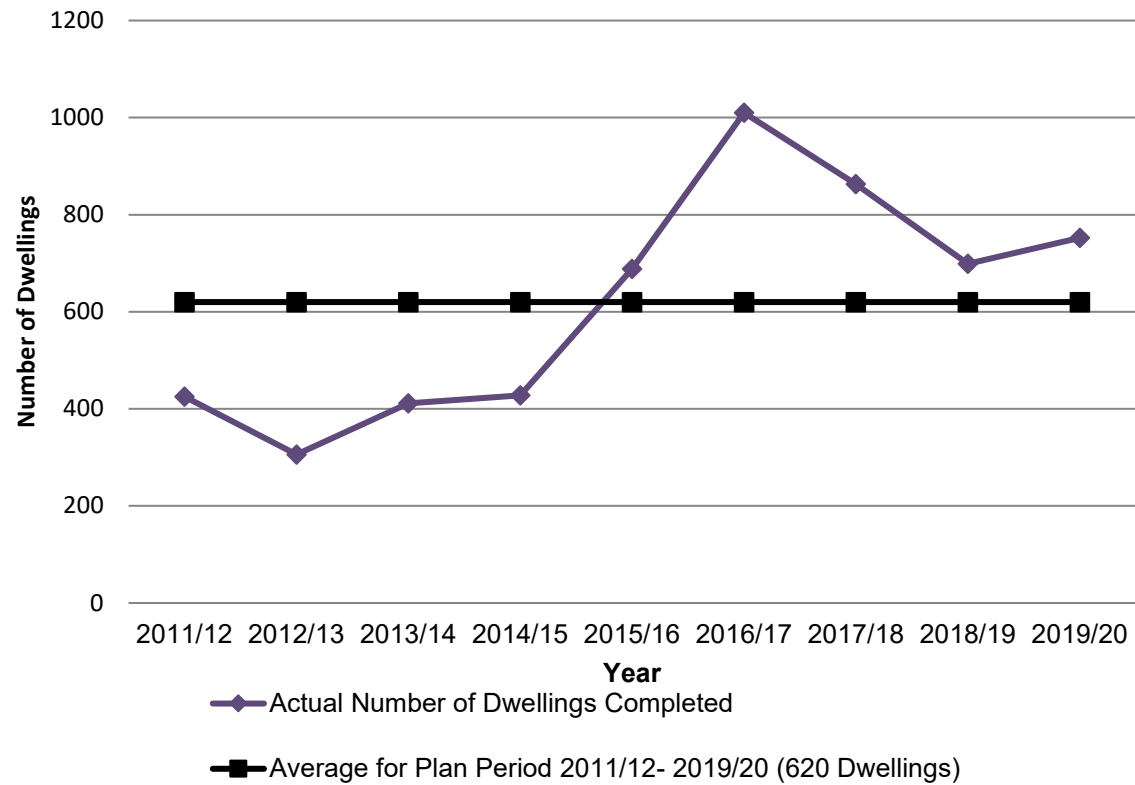

**"Previously Developed Land"** (PDL) – as per the definition in the National Planning Policy Framework (NPPF), can also be referred to as "Brownfield" land (see extract from the NPPF in Appendix D of this document).

**"Greenfield"** – sites that do not fall within the definition of previously developed land (see Appendix D for a fuller description of what constitutes Greenfield land).

### 3. Completions

#### 3.1. Number of dwellings completed each year from 1 April 2011

### Figure 1 - Completions 2011/12 - 2019/20

**3.2 Table 1 - Number of Dwellings Completed during the Plan Period**

<b>Year</b>	<b>Actual Number of Dwellings Completed</b>
2011/12	425
2012/13	306
2013/14	411
2014/15	428
2015/16	688
2016/17	1,010
2017/18	863
2018/19	699
2019/20	752
<b>Total</b>	<b>5,582</b>
Average for period 2011-2020	620

### 3.3 Assessment against the Local Plan

The NPPF has placed a renewed emphasis on Local Authorities setting their own housing targets, using robust and the most up to date evidence to determine their local housing requirements. The Plan for Stafford Borough (adopted June 2014) sets the local housing requirement at 10,000 dwellings (2011-2031), with an annual requirement of 500 dwellings per annum.

Table 2 shows how this compares with the rate required for the whole plan period and the actual annual coverage.

**Table 2 - Completion Rates**

<b>Plan Period</b>	<b>Completion Rate (Number of Dwellings/Year)</b>
Annual Target (2011 - 2031)	500
Annual Completion Average (2011 - 2020)	620
Cumulative Completions (2011 - 2020)	5,582
Remaining Balance (2020 - 2031)	4,418

### 1.1. Completions by Sub Area

Figure 2 below gives a broad locational breakdown of completions on all sites from 1 April 2019 to 31 March 2020.

**Figure 2 - Completions by Sub Area 2019/20**

During the last monitoring year, 88% of total completions have been in the urban areas of Stafford and Stone and the Key Service Villages (KSV), with rural completions accounting for 12% of the total. This demonstrates an increase in rural completions from previous years. However, the majority of completions remain in the more sustainable settlements of the borough.

### 1.2. Completions by “Origin” of Completion

Figure 3 shows completions by origin of completion, i.e. the number of completions that occurred on either “Unallocated (Windfall)” or “Allocated” sites between 1 April 2019 and 31 March 2020.

**Figure 3 - Origin of Completions 2019/20**

In 2019/20, unallocated (Windfall) sites account for 53% of completions. Due to Allocated sites (Strategic Development Locations) in the new Local Plan having permission and delivering housing completions, the figures this year have continued an increasing trend towards a greater percentage of completions on allocated sites.

### 1.3. Completions by Site Type

Figure 4 shows completions by site type, i.e. “Greenfield” or “Previously Developed Land” (PDL), between 1 April 2019 and 31 March 2020.

**Figure 4 - Completions by Site Type 2019/20**

During the last monitoring year 30% of development took place on Previously Developed Land. Since the start of the plan period, 45% of completions have been on PDL. A full breakdown of completions on PDL and Greenfield sites since the start of the Plan period is given below in Table 3.

**Table 3 – Breakdown of Completions by Site Type**

<b>Year</b>	<b>Number of Completions on PDL Sites</b>	<b>Number of Completions on Greenfield Sites</b>	<b>Total Number of Completions</b>	<b>Percentage of Completions on PDL</b>
<b>2011/12</b>	251	174	425	59%
<b>2012/13</b>	245	61	306	80%
<b>2013/14</b>	251	160	411	61%
<b>2014/15</b>	305	123	428	71%
<b>2015/16</b>	344	344	688	50%
<b>2016/17</b>	412	598	1,010	41%
<b>2017/18</b>	274	592	863	32%
<b>2018/19</b>	191	508	699	27%
<b>2019/20</b>	228	524	752	30%
<b>Total</b>	<b>2,501</b>	<b>3,084</b>	<b>5,582</b>	<b>45%</b>

## 2. Commitment Sites

Commitment sites are those which have a planning consent or consent subject to the completion of a Section 106 Agreement. Therefore, dwelling **units actually under construction** at the time this study was undertaken **are included**. Sites allocated in the Plan for Stafford Borough which do **not** currently have planning permission are **not included**. Table 4 shows each type of planning consent and the number of outstanding committed dwelling units, giving the Borough's total for 2019/2020.

**Table 4 – Number of outstanding net commitments as at 31 March 2020**

Consent Type	Outstanding Committed Units	Percentage of Total
Full/ Reserved Matters (REM)	2,904	48%
Outline	1,287	22%
Pending (Section 106 Agreement)	1,829	30%
<b>Total</b>	<b>6,020</b>	<b>100%</b>

- A planning permission (17/25759/OUT) relating to a site at Blackies Lane, adjacent to the Stone settlement boundary, is currently the subject of appeal. At the time of writing the Planning Inspector had not yet determined this appeal. This permission would see the delivery of 20 dwellings. As such this permission have not been included in the above planning commitment data. Once this situation has been resolved future editions of this report will update the data as necessary.

### 2.1. Outstanding Commitments by Planning Status

Figure 5 provides a breakdown of housing commitments by planning status as at 31 March 2020.

### Figure 5 - Outstanding Commitments Planning Status at 31 March 2020

**Key:**

Full / REM = Full planning consent / reserved matters

Outline = Outline permission

Pending S106 = Pending completion of planning obligation under Section 106 of the Town & Country Planning Act 1990

## 2.2. Outstanding Commitments by Origin of Commitment

Figure 6 shows the origin (i.e. whether it is an allocated or a windfall site) of housing commitments as at 31 March 2020. This highlights that allocated sites within the Local Plan account for a significant portion of the 2020 commitments.

**Figure 6 - Origin of Outstanding Commitments at 31 March 2020**

Please note: The allocated commitments only include those parts of the sites which have received planning permission (See Section 5).

### 2.3. Outstanding Commitments by Site Type

Figure 7 shows the outstanding commitments by site type as at 31 March 2020. Of the outstanding commitments, 17% are on Previously Developed Land (PDL) and 83% are on Greenfield sites. Figure 7 can be compared to Figure 4 above, which shows completions this year, by site type.

**Figure 7 - Outstanding Commitments by Site Type at 31 March 2020**

## Outstanding Commitments by Year

Figure 8 illustrates the number of net outstanding commitments (with planning permission or resolution to grant subject to s106 agreement) as of the 31 March for each year so far this plan period.

### Figure 8 - Outstanding Commitments 2011/12 - 2019/20

### **3. Local Plan Allocations**

The complete list of Local Plan allocations, their delivery timescales and the quantum of development is set out below. The tables include a row for the 'Remaining Allocation' which are sites that have not been granted planning permission but are allocated for residential development in the Local Plan. The '5 year supply total' at the bottom of the tables indicates the number of houses that will be delivered over the next 5 years for each site.

## Northern SDL

### Land North of Beaconside

1. Outline Planning permission granted for 409 houses (10/13362/OUT)
2. Reserved matters permission granted for 257 dwellings (13/18533/REM)
3. Reserved matters permission granted for 152 dwellings (14/20781/REM)
4. Full Planning permission granted for 66 dwellings (14/21007/FUL)
5. Outline Planning permission granted for 700 houses, (16/24595/OUT)
6. Reserved matters permission granted for 100 houses (18/28182/REM)

### Northern Stafford SDL Total - 3,100

<b>Total</b>	<b>6047</b>	<b>366</b>	<b>1415</b>	<b>2,632</b>	<b>2,406</b>

---

<sup>1</sup> The remaining 2,000 permitted on the Northern SDL are subject to the signing of the S106 Agreement. Upon the signing S106 the 2,000 dw in the “Remaining Allocation (without Planning Permission)” column will switch to the “Remaining capacity (with Planning Permission)” column.

#### **4. Windfalls**

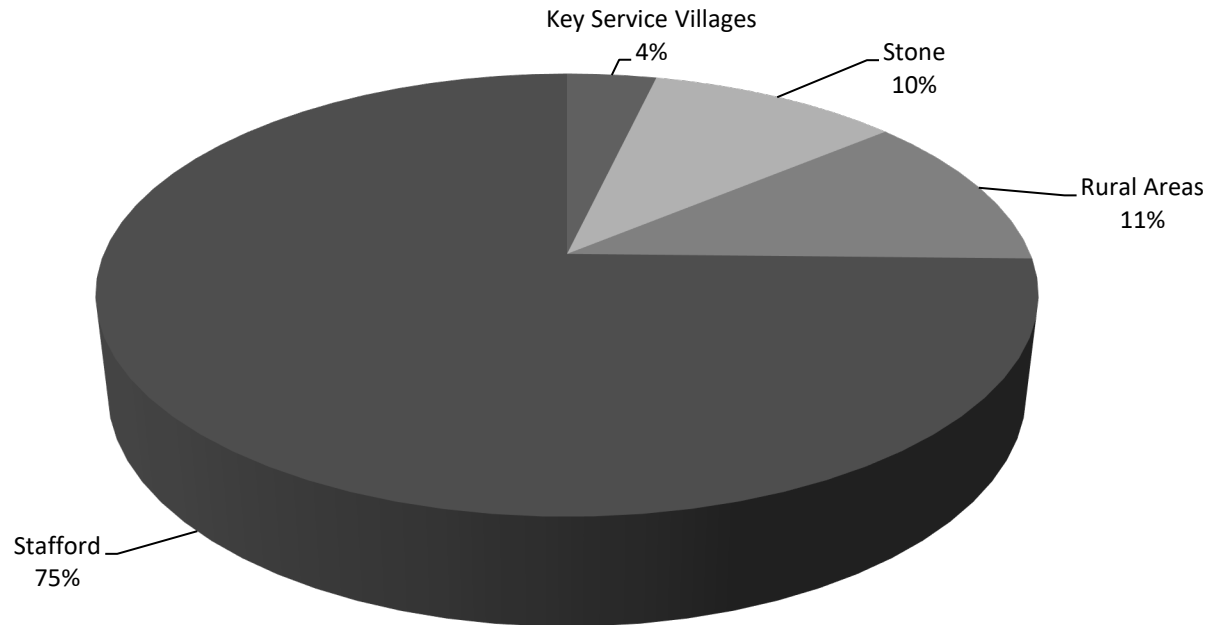

Sites that come forward through the planning application process without having been previously allocated in the Local Plan comprise windfall provision - by means of infill, conversion or redevelopment - and are an important numerical contributor to the provision of new dwellings.

The rate at which “windfall” sites come forward is influenced by many factors including market demand and the release of sites previously in non-residential use. It is important to monitor windfall provision as an assessment of past trends, and to be able to derive some indication as to likely future supply.

#### 4.1. New Windfall Permissions by Geographical Location

Figure 9 provides a breakdown of residential windfall permissions granted from 1 April 2019 to 31 March 2020 by geographical area. The analysis shows that 89% of dwellings were granted planning permission in the urban areas of Stafford, Stone or the Key Service Villages.

**Figure 9 - New Windfall Permissions 2019/20 by Sub-Area**

## 4.2. New Windfall Permissions by Site Type

Figure 10 provides a breakdown of residential windfall permissions granted from 1 April 2019 to 31 March 2020 by site type. Recent monitoring years have shown an increase in permissions being granted on PDL sites when compared to monitoring years earlier in the plan period.

**Figure 10 - New Windfall Permissions  
2019/20 by Site Type**

**Note:** Conversions of existing, former agricultural buildings as well as residential gardens are included as “Greenfield” sites. A large proportion of rural dwellings granted through windfall permissions this year on Greenfield sites were conversions of existing and former agricultural buildings. Insofar as the permissions granted on Previously Developed Land (PDL) are concerned, these comprise land generally classed as having been developed previously (i.e. brownfield), for example former garages, industrial premises etc.

## 5. Sites with Planning Permission

### Key to Tables in Appendices A to C

#### Development Type

CR – Conversion from Residential

CO – Change of Use from Other Use

CE – Change of Use from Employment (B1-B8)

NC – Not a Conversion or Change of Use

MX – Mix

NB – New Build

DC – Dwelling Conversion

CU – Change of Use

RN – Renewal

#### Development Tenure

MH – Market Housing

AH – Affordable Housing

#### Recycled: Greenfield/ Previously Developed Land (PDL) Type

G – Greenfield Site

GL – Garden Land

FE – Former Employment

FR – Former Residential

O – Other PDL

#### Approval Types

OUT – Outline Planning Permission

POR – Residential Prior Approval from Office Use

FUL – Full Planning Permission

PRR – Residential Prior Approval from Retail Use

EXT – Extension of Time

EXTF – Extension of Time on Full planning application

EXTO – Extension of Time on Outline planning application

AMN – Non material Amendment

COU – Change of Use

LDC – Lawful Development Certificate (existing)

POTH – Prior approvals Other

NOTH – Notifications Other

PAR – Residential prior approval (from Agricultural buildings)

REM – Reserved Matters

**Appendix A – Settlement Sites (windfall)**

**STAFFORD SITES**

- A planning permission (17/25759/OUT) relating to a site at Blackies Lane, adjacent to the Stone settlement boundary, is currently the subject of appeal. At the time of writing the Planning Inspector had not yet determined this appeal. This permission would see the delivery of 20 dwellings. As such this permission have not been included in the above planning commitment data. Once this situation has been resolved future editions of this report will update the data as necessary.

<b>OVERALL TOTALS</b>	<b>8,230</b>	<b>2,203</b>	<b>6,027</b>	<b>752</b>

\*This column shows the number of completions to date on sites currently identified within this Housing Monitor. Please see Table 1 in the main body of the report to see the total number of cumulative completions since the start of the plan period.

\*\*Bedroomed C2 completions to date and completions in 2019/2020 have been discounted; therefore the totals differ slightly from those in Appendix C.

\*\*\*Excluding sites subject to Section 106 being signed.

Note: The above table does not include sites which are allocated through the Local Plan but have not been granted planning permission. In addition, totals can not be used to compare against the percentages in Policy SP4 of the Plan for Stafford Borough.

## **Appendix D - Definitions**

### **Previously Developed Land (PDL or Brownfield) - as defined in the National Planning Policy Framework (NPPF)**

Land which is or was occupied by a permanent structure, including the curtilage of the developed land (although it should not be assumed that the whole of the curtilage should be developed) and any associated fixed surface infrastructure. This excludes: land that is or was last occupied by agricultural or forestry buildings; land that has been developed for minerals extraction or waste disposal by landfill, where provision for restoration has been made through development management procedures; land in built-up areas such as residential gardens, parks, recreation grounds and allotments; and land that was previously developed but where the remains of the permanent structure or fixed surface structure have blended into the landscape.

### **Greenfield**

Greenfield land for the purpose of this monitor is land which has not been occupied by a permanent structure, including land in both rural and urban areas. The conversion of agricultural buildings falls within the Greenfield definition as does the development of garden land of existing dwellings.
