

Ambitions for 2026

- Protect, link up and enhance existing local footpaths and green areas
- Create a green corridor from Millenium Way to the Balancing Pond
- Orient development in the Gateway towards a sustainable, climate friendly direction

Ambitions for 2026

- Biodiversity – connect our bio-region from Weeping Cross to Cannock Chase and the Shugborough Estate, including a focus on swifts
- Housing – respond to development proposals
- Waste – reduce, reuse, recycle
- Travel – encourage less car use to make the area safer for children and hedgehogs!

Ambitions for 2026

- Biodiversity – our bio-region links Rising Brook the River Penk
- We are building our river ecosystem with Rising Brook Ground Force and River Fly Training
- We are working with our community to plant trees and support swifts and hedgehogs
- We are a resident's group with some interest in biodiversity

Ambitions for 2026

- Biodiversity – our bio-region from Rising Brook to Stafford Castle
- Our river ecosystem – monitoring the quality of Rising Brook by River Fly Training
- Planting trees and meadow flowers
- Supporting swifts

Ambitions for 2026

- Find ways to pursue a more sustainable lifestyle
- Reconnect with nature and enhance biodiversity
- Connect, socialise and support each other
- Be aware of the positive progress which is happening
