## **VALUE ADDED TAX**

The schedules of fees and charges indicates the V.A.T. status of individual charges. The following sets out an explanation of the V.A.T. liability in respect of the various categories.

Basically there are 4 categories for V.A.T purposes with which the supply of goods and/or services are grouped. As a general rule V.A.T. should be applied at the "Standard rate (S)" – currently 20% [fuel rate (P) – currently 5%] unless the supply falls within one of the other 3 categories, for which no V.A.T. is applied. These categories are shown as (i) to (iii) below:-

(i)      Zero Rated (ZR) -    No V.A.T. to be applied to the supply of goods or services but a registered trader can reclaim tax on supplies to him which he/she incurs for the purpose of making zero rated supplies.

This is shown in the booklet by the letters "ZR". It can include food, books, sewerage and water services, banknotes, clothing and footwear.

(ii)     Exempt (E) -        No V.A.T. is to be applied on the supply of goods or services and a registered trader cannot recover any tax paid on supplies to him.

This is shown in the booklet by the letter "E". It includes insurances, banking and rents.

(iii)    Non-Business (NB) · There are special rules relating to local authorities in this category in that their statutory and other non-business activities will be outside the scope of the tax and any V.A.T. falling on purchases by them for goods or services for these activities would not be deductible under the normal mechanism. In order to avoid the tax on these purchases burdening the Council Taxpayer special arrangements are made.

This is shown in the booklet by the letters "NB". For public authorities non-business items are those for which they have a statutory monopoly or are enshrined within legislation. In these cases the supplies are outside the scope of V.A.T.

To reiterate, any supplies not falling within categories (i) to (iii) above must be treated as standard-rated. These are shown in the booklet by the letter "S" and are shown inclusive of V.A.T.
