# Foreword:

“ Neighbourhood Plans derive from the Government's determination, through the Localism Act, to ensure that local communities are closely involved in the decisions that affect them. In September 2015, Stone Town Council applied to Stafford Borough Council for the Parish of Stone to be designated as a Neighbourhood Planning Area. Once accepted, the Town Council then agreed that a Neighbourhood Planning Steering Group be set up including Town Council Members, community volunteers, business personnel from the area and other interested members from the community. The agenda was to establish a vision for Stone through the Neighbourhood Plan, which delivers the local community's needs and aspirations, but at the same time being in accord with the Plans for Stafford Borough Part 1 and Part 2.

The Neighbourhood Plan is a statutory document that will be incorporated into the Borough planning framework, and must be used by Stafford Borough Council to determine planning applications. The Neighbourhood Plan has been produced by the community, with the support of Stone Town Council, using the views of the residents of Stone, and has been brought together by a Consultant from Urban Vision Enterprise CIC. Financial support has been provided by the nationwide community support organisation, and through the Community Rights Programme, Groundwork UK. The Stone Neighbourhood Planning Steering Group has consulted with and listened to the community on a wide range of issues that will influence the well-being, sustainability and long-term preservation of this community. Every effort has been made to ensure that the views and policies contained in this document reflect those of the majority of Stone's residents.

Once the Plan has been made, following a favourable local referendum, the Stone Neighbourhood Plan will form part of the development plan and become, with the Borough Council's Local Plan, the starting point for deciding where development should take place and the type and quality of that development, ensuring that development is sympathetic to, and improves the look and feel of, the area. The plan also seeks to improve community facilities, services, infrastructure and the local environment to ensure that the quality of life of existing residents is improved and that future generations enjoy an excellent quality of life. ”

**Kristan Green**  
- Town Mayor

# Background to the Neighbourhood Plan:

This Neighbourhood Plan will set out the direction for Stone until 2031. It has been brought forward under the Government's Localism Act 2011, enabling local communities in England to take the lead in planning how their own neighbourhoods will develop. Stone Town Council has produced this Neighbourhood Plan in order to shape the future development of Stone. Although the Government's intention is for local people to influence what goes on in their neighbourhood area, the Localism Act 2011 does also set out important legal requirements. In accordance with such legislation, the Neighbourhood Plan must meet the basic conditions:

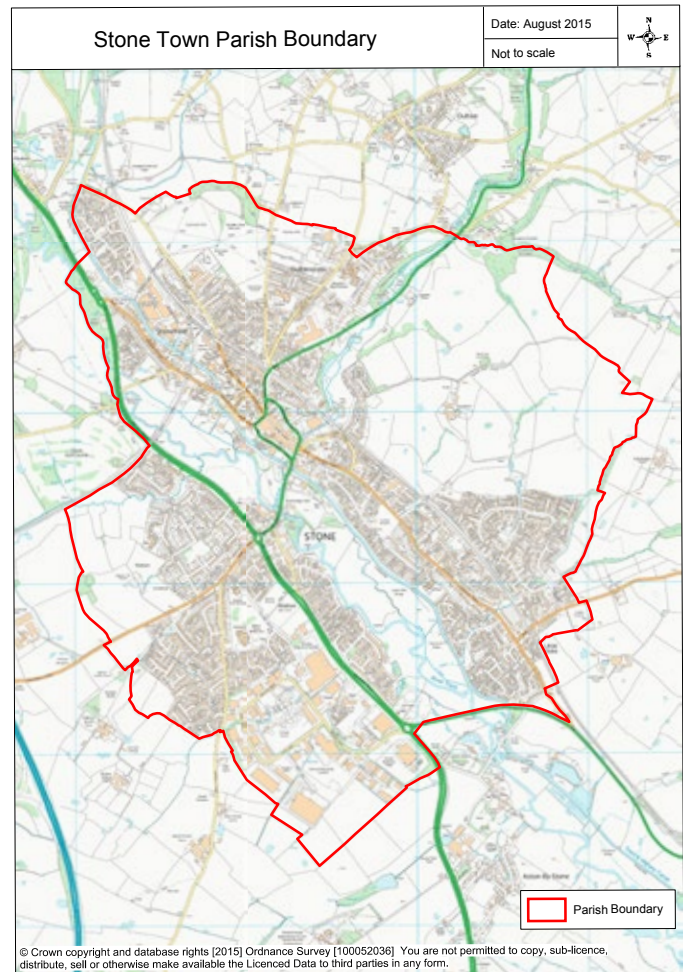

- Have regard to national policies and advice contained in guidance issued by the Secretary of State, namely the National Planning Policy Framework, NPPF and Planning Practice Guidance (PPG)
- Contribute to the achievement of sustainable development;
- Be compatible with European Union (EU) and European Convention on Human Rights (ECHR) obligations; and
- Be in general conformity with the strategic policies of the development plan for the area, which in this case is the adopted Plan for Stafford Borough (PFSB) Part 1 June 2014, and the adopted Plan for Stafford Borough Part 2 January 2017.

In relation to the latter, the Stone Neighbourhood Plan must be in general conformity with the strategic policies in the adopted plan for Stafford Borough Part 1 and Part 2 which have:

- i) Allocated land for a minimum of 1000 new homes to be delivered over the next 15 years;
- ii) Allocated land for 18 hectares of new employment land and
- iii) Identified a settlement boundary for Stone.

Within these constraints, the Neighbourhood Plan still gives the opportunity for local people to have control over the future of their town, by actively planning where other development should go and what benefit it would bring to the town. Furthermore it can designate local green space to safeguard, improve and increase the local environmental and recreational resources of the town for the benefit of the health and well-being of local residents.

It can also incorporate other wider policies that go beyond land use considerations and demonstrate support for wider strategic improvements.

## The Neighbourhood Area:

The neighbourhood area is the area that will be covered by the Neighbourhood Plan. The Stone Neighbourhood Area, which is the same as the area defined by the Stone Parish boundary, was designated by Stafford Borough Council on the 8th December 2015. The Borough Council's decision empowers Stone Town Council to produce a Neighbourhood Plan for the Parish of Stone. The Stone Neighbourhood Area is shown above:

## Purpose of the Neighbourhood Plan:

Like many rural areas in England, Stone has been the subject of increasing pressures for development.

Neighbourhood Plans are part of the statutory planning system. This means that when decisions are made on planning applications, the policies and proposals in the Neighbourhood Plan must be taken into account by the local planning authority, Stafford Borough Council.

Neighbourhood Plans are a new type of statutory plan. Not only are they intended to be produced by local people for their own areas, they also have to be agreed through a referendum of the

people living in that area. Unlike national planning policy, which is approved by Parliament, or local planning policy, which is approved by the local authority, a Neighbourhood Plan must be the subject of a vote by residents of the neighbourhood area.

The Stone Neighbourhood Plan will be a statutory planning policy document supported by a majority of local people, which will enable Stone Town Council to have a greater and more positive influence on how the town develops over the remainder of the plan period going forward to 2031.

## The Scope of the Neighbourhood Plan:

Although the purpose of Neighbourhood Plans, as previously highlighted, is to allow local people to have a greater say in the development of their areas, each Neighbourhood Plan must be in line with, and not contradict, higher level planning policy. It is a legal requirement for Neighbourhood Plans to have appropriate regard to the National Planning Policy Framework and to be in general conformity with local strategic policies. A key implication of these requirements is that, where the Local Plan has a growth allocation for an area, the Neighbourhood Plan must provide scope for at least the level of growth specified in the Local Plan. This is discussed in more detail in the Local Plan section.

In planning the future development of their areas, local planning authorities must set out the level of growth in housing and employment, which will take place over the next 10 to 15 years.

In other words the total numbers of new dwellings that will be built and the total area of land for new employment that will be developed are both provided by the local planning authority. The Neighbourhood Plan can determine where these dwellings or business units will go, and it can allow a higher level of growth than the local planning authority requires, but it cannot reduce the scale of these allocations.

Consequently, it may only deal with the same range of matters as all other statutory development plans, namely the development and use of land. Other matters, such as the promotion of events, social and community activities, advisory support for businesses, etc., and matters which are covered by separate legislation, such as those related to Highways' matters, cannot be dealt with in the Neighbourhood Plan.

# The Neighbourhood Plan Process:

The Neighbourhood Plan process is set out in the Neighbourhood Planning (General) Regulations 2012. This document defines the main stages that a Neighbourhood Plan must go through before it is voted on at the referendum. Neighbourhood Plans that do not closely follow the Regulations in the way they are produced may be vulnerable to legal challenge at a later date. The following diagram illustrates the main stages in preparing the Stone Neighbourhood Plan.

## Main Stages of the Stone Neighbourhood Plan Process:

Neighbourhood plans must be based on relevant evidence about the neighbourhood area, (the Parish of Stone), and must reflect the views of the local community. The Town Council has therefore been careful to gather the necessary evidence to inform the Neighbourhood Plan and to underpin the policies within it.

The Neighbourhood Plan itself has been led by the Stone Neighbourhood Development Plan Steering Group, which is made up of Town Councillors and volunteers from the local community. In producing this draft Neighbourhood Plan, the Steering Group has been supported by Neighbourhood Planning specialists, Urban Vision Enterprise CIC. Throughout the process the Steering Group has liaised with Stafford Borough Council who have provided practical assistance and advice on key issues such as strategic policies.

The Town Council organised many informal consultation events to gauge local opinion at key stages in the production of the Neighbourhood Plan. In addition, the Neighbourhood Plan must be the subject of a 6 week period of statutory consultation before the plan can be submitted to Stafford Borough Council. This is the stage when views about the Neighbourhood Plan are formally recorded and formally responded to, so anyone wishing to make comments must use this opportunity to register them.

During formal consultation the Town Council will advertise that the draft Neighbourhood Plan is available for people to comment on. The publicity will notify people of where they can see a copy of the Neighbourhood Plan, the deadline for comments, and where they can be returned. Details and all relevant documents are available on the Stone Town Council Neighbourhood Plan website <http://www.stonetowncouncil.gov.uk/neighbourhood-plan> and forms will be made available for people to register their comments.

After the formal consultation period the Town Council will consider all the representations received and decide how to respond to them. This includes making appropriate modifications to the draft Neighbourhood Plan if necessary.

## The Local Plan:

One of the core principles of the NPPF states, 'planning should be genuinely plan led'. The current Local Plan is the Plan for Stafford Borough, (PFSB), Part 1 and Part 2 adopted on the 19th June 2014 and 31st January 2017 respectively, and covers the plan period 2011-2031. Within that plan it identifies Stone as the second in the settlement hierarchy within Stafford Borough. Census figures from 1991 to 2011 evidence a 33% growth in the town's population rising to 16,365, with further growth continuing since then. This can be compared to a 24% growth at Stafford, at the top of the settlement hierarchy, over the same period. The PFSB has sought to redress this growth imbalance by

The amended Neighbourhood Plan will then be submitted to the Borough Council, along with a Consultation Statement and a Basic Conditions Statement explaining how the Neighbourhood Plan satisfies the defined legal requirements.

It is the Borough Council's duty to check whether the Neighbourhood Plan has followed the proper legal process and that it has met the legal requirements for consultation and publicity. If the Borough Council is satisfied in this regard, then the Borough Council will publish the Neighbourhood Plan and invite representations from the public and from statutory consultees. At this stage comments must focus on whether the Neighbourhood Plan satisfies the basic legal conditions.

Following the 6-week publicity period the Borough Council will appoint an independent examiner to consider the Neighbourhood Plan and any representations made at this stage. The independent examiner's duty is limited to considering whether the Neighbourhood Plan meets the basic conditions. This means there is little scope to alter the content of the Neighbourhood Plan at this stage.

The independent examiner will prepare a report, which can recommend that the Neighbourhood Plan proceeds to a referendum, or proceeds to a referendum with appropriate modifications. If the examiner concludes that the Neighbourhood Plan does not meet the basic conditions he or she will recommend that it does not proceed to a referendum.

If the examiner finds the Neighbourhood Plan to be satisfactory, with modifications if necessary, then Stafford Borough Council will arrange for a referendum to take place. All people on the electoral register who live in the neighbourhood area (Stone Parish) will be entitled to vote in the referendum.

If more than 50% of the votes cast support the Neighbourhood Plan, then the Borough Council will bring the plan into force through a resolution of the Council.

allocating the greater proportion of housing development within the plan period to Stafford (7,000 new homes). Stone has been allocated a minimum of 1,000 units, but due to the popularity of Stone it is already 'overshooting' with the danger that it has the potential to skew disproportionately the plan-led system.

The Neighbourhood Plan has a role to play in ensuring that Stone plans for the proposed growth ensuring that any future development meets the needs and aspirations of the community.

# Consultation:

Consultation is vital to the Neighbourhood Planning process as this is the mechanism through which the wishes of the community are incorporated into the Plan.

It is important to emphasise that the Stone Neighbourhood Plan actually belongs to the people of Stone. The vision and policies within it are based on listening carefully to the wishes of local people and businesses expressed via various methods:

For those unable to attend the community consultation events, in November 2015, the Neighbourhood Plan Steering Group undertook an extensive questionnaire survey as part of the evidence gathering process, and distributed this to households and businesses within the Parish. The survey was also published in the Stone Gazette, a widely read local magazine, with a response slip to return to the Town Council. Information regarding the Public Consultation was also available on the Town Council website, a 'Little Bit of Stone' website, and advertised in the local press.

The survey provided essential and comprehensive feedback to the Steering Group on people's general opinions about the area, what they like, what they don't like, and what changes they would wish to see.

Community Consultation drop-in events took place as follows:

- 9am to 2pm on Saturday 21st November in the High Street, Stone Town Centre
- 6:00 to 8:30 pm on Monday 23rd November at Walton Community Centre
- 6:00 to 8:30 pm on Tuesday 24th November at St Michael's First School
- 6:00 to 8:30 pm on Wednesday 25th November at Alleyne's Academy

As a direct result of some of the consultation evidence, the group organised further community engagement focussing on exploring Stone Town Centre with a 'Town Tour' event on Saturday 12th March 2016. This provided the opportunity to look more closely at some of the issues raised during earlier engagement events.

Local residents overwhelmingly value Stone as a pleasant place to live and expressed great concern for how Stone should develop in the future.

# Key Outcomes and Issues:

Stone has many positive features that make it an attractive place in which to live. Local people generally have a high regard for Stone and appreciate its many assets: most notably the green open spaces in and around the town; its shopping and other facilities; the ambience of Stone as a historic market town; its thriving community spirit, and the wide range of leisure and recreational activities available to residents. Stone has good transport links to nearby towns and cities, local job opportunities, good schools, and access to the canal and river meadows, which are close to the heart of the town.

These assets have resulted in Stone being a desirable place to live, and therefore as the second largest settlement in Stafford Borough, it has become a focus for new housing development and, to a lesser extent, employment development. In recent years, the town has seen significant housing growth, which is set to continue in the site allocations made by the latest Stafford Borough Local Plan. During the Stage 1 consultation, a number of local people expressed a desire to limit housing growth in Stone, because of the adverse impact this would further have on local infrastructure and on local green space. A number of people emphasised the importance of protecting and enhancing existing areas of open green space, which are important to the local community.

The Plan for Stafford Borough contains site allocations for Stone which will see the addition of a further 500 new homes in addition to those which already have planning permission. This is a strategic housing allocation, which the Neighbourhood Plan cannot alter. Given this strategic commitment to significant new development over the plan period, it will be important

to ensure that homes are built and designed to the best possible standard and complement and enhance the local built environment.

Alongside the expansion of the town, the other issue which was of great concern to many people during the Stage 1 consultation was the town centre and the High Street. The overwhelming view expressed was that the town centre is in decline, which is demonstrated by the number of charity shops and vacant shops, a reduction in the range and quality of shops available, and the loss of local independent shops. Furthermore emphasis was focused on the town centre environment which is not maintained to a high enough standard, whilst some key historic buildings are underused and in need of refurbishment.

Many people were concerned about the amount of traffic, which passes through the town, causing congestion at peak periods and difficulties for pedestrians, thus serving to isolate the historic core from the residential areas around it. A number of people also mentioned a shortage of convenient, free or reasonably priced car parking.

The other main concern expressed was overstretched local community services and facilities, which many people attributed to the increased population. In particular, medical facilities were considered to be inadequate to meet current demand and in need of upgrading. Leisure facilities for children, young people and teenagers were regarded to be inadequate and in need of improvement.

# Stone – The Place

In order to produce a robust Neighbourhood Plan it is necessary to have a good understanding of both the neighbourhood area and the local community's views about what should be done to improve and protect it. This section of the Plan provides a brief history of Stone, its growth in the 20th century, and an assessment of its character.

## Location:

Stone is an old market town in Staffordshire which serves a significant rural hinterland. Situated about 7 miles (11 km) north of Stafford, and around 7 miles (11 km) south of the city of Stoke-on-Trent, it is the second town in the Borough's settlement hierarchy after Stafford itself. Although in mid-Staffordshire, from a national perspective it is considered as being in the North Midlands and is located almost midway between Birmingham and Manchester.

The Parish consists of two distinct areas bisected by the A34, a dual carriageway and major trunk route, and the River Trent which lies slightly east of but parallel to the road. To the west of the river is Walton, a predominantly residential area with housing development occurring in the main over the last 50 to 60 years. The town's main Business Park is also located here to the west.

To the east lies the town centre and the older pre-Victorian and Victorian residential areas. This said, there has also been new development in the 1980's and 1990's south and east of the town centre including the building of the large Aston Lodge estate and the area around Brassworks Farm, along with infill along the Lichfield Rd.

## Landscape and Setting:

Stone lies on the River Trent. The Trent rises on Biddulph Moor some 18 miles away and passes through Stoke-on-Trent before flowing in a north-west to south-east direction through Stone parish. The river, as previously highlighted, divides the parish into two halves. The Scotch Brook, a tributary to the Trent rises approximately 3 miles away near Moddershall, to the north/north-east of Stone. This fast flowing stream winds its way through the town, under an aqueduct supporting the Trent Mersey Canal, joining the Trent just above the main road bridge which spans the river on Stafford Road.

The floodplain of the River Trent, which also accommodates the Trent Mersey Canal along most of its length in the parish, forms a green corridor and has three designated Local Nature Reserves within its boundaries. Westbridge Park, a recreational area for the local community and a site for hosting town events, also forms part of that corridor.

The immediate area of Stone comprises a small inlier of Keuper sandstone. These beds dip gently to the south where they are quickly buried beneath a thickening cover of red clays, which make up the Keuper marl. To the north, the inlier is abruptly truncated by an east-west fault, resulting in the sandstones making a low escarpment, which defines the northern edge of the Common Plot. In terms of topography, within the parish the land to the east of the Trent rises from a level of 88m AOD by the river itself to 160m AOD, the highest point, just above Stone Park Farm. Land to the west of the river has a gentler incline rising to approximately 115m AOD within the parish boundary.

Stone is on the border of two National Character Areas defined by Natural England, namely NCA 68 The Needwood and South Derbyshire Claylands to the east of the River Trent, and NCA 61 Shropshire, Cheshire and Staffordshire Plains to the west of the river. Although the Parish of Stone is predominantly urban in character and referred to as a market town in the above document it does have rural areas within the boundary. These fall into three Landscape Character Types:

- 1) NCA68: Settled farmlands: These are to the north/east and east of the town centre encompassing the area around Stone Park Farm behind Aston Lodge estate and the lower section of the Moddershall Valley. This is a landscape of strongly rounded or sloping landform with steeper slopes associated with narrow wooded stream valleys. Non-calcareous brown soils overlay Triassic mudstones. The dominant land use is dairying with some mixed farming. There is a varied pattern of small to medium sized hedged fields which contribute substantially to landscape character, with a scatter of small woodlands, often of ancient origin. The settlement pattern is of mixed traditional red brick buildings and not distinctive. According to Staffordshire County Council Landscape Character mapping, this is highlighted as being a sensitive area, with the critical factor which currently limits landscape quality being the loss of characteristic semi-natural vegetation, in particular ancient woodland and hedgerows and semi-natural grasslands.
- 2) NCA 61: Settled farmlands: This is land to the east of Walton up to the parish boundary. Landscape characteristics include a gently undulating landform, mature broadleaved woodlands, and a strong irregular hedgerow pattern with well treed field ponds and stream corridors. The settlement pattern is mixed comprising traditional red brick farmsteads and houses. The area is not highlighted as sensitive in landscape mapping documents.

3) NCA 68: Sandstone heaths and hills: This encompasses land to the north and north east of Stone. Specifically within the parish, this includes Coppice Wood and land south of Nicholls' Lane, land behind Alleyne's sports Centre and land crossing Old Road to include the Common Plot. This landscape is restricted to areas where Triassic sandstones are not obscured by drift deposits. It is a landscape of mainly intact, small to medium scale irregular fields superimposed on a rolling lowland landform incised by small steep sided valleys known locally as drumbles. The small scale enclosed feel to this pastoral landscape is emphasised by the network of narrow, sunken winding lanes with small hidden settlements. Broadleaved and conifer woodlands are often associated with the steep stream valleys. Some small areas of heathland

that was formerly widespread survive but make limited contribution to visual character. However it is the heathy nature of the woodlands, and the presence of bracken in hedgerows that provide the stronger visual reminder of this landscape's heathland origins. These landscapes, according to Staffordshire County Council Landscape Character documents, are of high quality with few limiting factors.

# History and Heritage:

The local legend is that the town was named after the pile of stones taken from the River Trent raised on the graves of the two princes, namely Ruffin and Wulfad, killed in AD 665 by their father, King Wulfhere of Mercia because of their conversion to Christianity. However, this story is unlikely to be true. Wulfhere was already a Christian when he became king, and the story on which it is probably based is set by Bede in another part of the country over ten years after Wulfhere's death.

A church allegedly built over these stones in 670 lasted until the 9th century before being destroyed by invading Danes. It was replaced in 1135 by the Augustinian, Stone Priory which survived until its dissolution in the reign of Henry VIII. The building collapsed in 1749 and the present church of St. Michael's was built in 1758. All that remains of the original priory is the rib-vaulted undercroft which forms the foundations beneath Priory House on Lichfield Road.

There is no record of a village or town called Stone in the Domesday Book. Walton however, which forms part of the historic town of Stone, is mentioned in the Domesday Book.

The subsequent development of a significant medieval township at Stone must have had its origins in the decision to found a monastery or Priory, the site of which was chosen for good practical reasons. It lay on the ancient road from London to Chester following the Trent valley where there were fords to the now Scotch Brook and to the River Trent. The Scotch Brook stream ensured a permanent supply of clean water, adequate in volume to later power a number of mills. The site of Stone itself was reasonably well drained, yet close enough to the flood plain and water meadows, which provided permanent pasture. To the north there lay slightly elevated ground, (the Stonefield Area), underlain by sandstone and suitable for arable cultivation. With good communications at hand Stone Priory was soon confirmed as a centre of medieval life with the granting of a Market Charter, some say by Henry III, in 1251 and others by Edward I, in 1292.

Throughout the centuries the town continued to grow. Around the nucleus provided by the Priory and regular markets and fairs, a small trading community began to develop. This is still reflected in the lay out of the town with the long narrow 'burgage tenements' stretching back on both sides of the High Street.

In the 17th and 18th centuries Stone was an important road centre. To this was added the canal in the 1770's and the railway system in the mid 1800's together with industrial development, especially boot and shoe manufacturing. From a population of around 1,700 inhabitants in 1665, Stone grew to 7,500 by 1831, this growth being linked to the onset of industry and prosperity that followed from the opening of the Trent and Mersey canal in 1777.

John Wesley in 1789 wrote: 'the Town is in a more flourishing state than formerly owing to the great navigation that passes it. It consists of one principal street which is now a pretty good one with a new market place and one of the best inns on this extensive road' (from London to Chester).

## Famous People:

Famous people associated with Stone include: Thomas Bakewell, a poet and a pioneer in the treatment of the mentally ill; John Jervis, Earl St Vincent the victor of the sea battle against the Spanish at the Cape of St Vincent in 1797; Peter de Wint the landscape artist who is traditionally believed to have been born in Stone on 21st January 1784; Rev Stebbing Shaw, one of the first Staffordshire Historians who was born in the town in 1762; Henry Fourdrinier who redeveloped the paper making machine which revolutionised the paper making industry in this country. Fourdrinier is linked to Coppice Mill within the parish, which in the 1720's is documented as a paper mill, before being converted to a flint mill in the 1800's. Richard (Stoney) Smith who was born at the Mill, (also previously known as Weavers Mill), in Mill Street in 1836, (now a restaurant), and developed the flour we now know as Hovis. Cardinal John Henry Newman preached the sermon at the dedication of the nave of the Roman Catholic Church of the Immaculate Conception and St Dominic in Stone, and he presented the procession lights to the Sisters at the convent which are still in use today. William Bernard Ullathorne, first Roman Catholic Bishop of Birmingham, is buried in the transept of the Catholic Church in Stone. It was through his drive, dedication and enthusiasm as Archbishop of Birmingham in the early days of the re-establishment of the Roman Catholic Hierarchy in England, that the new diocese of Birmingham flourished and Catholicism spread throughout the area.

More recently, Olympic canoeist Lizzie Neave lived and trained in the town. Similarly, Joe Clarke who also lives and trains in the town won a gold medal at the 2016 Rio Olympics in the men's slalom K-1 event.

## Canal Town:

The first meeting of the Grand Trunk Canal Company (later the Trent and Mersey Canal Company) was held in the Crown Inn, Stone on 10th June 1766. At this meeting James Brindley was appointed Surveyor-General, John Sparrow Clerk and Josiah Wedgwood Treasurer. In 1767 it was decided to locate the headquarters of the canal company in the Town. The arrival of the canal in Stone changed the Town, to quote from a contemporary source "from a sleepy market town into a busy inland sea port".

## The Coaching Era:

Stone was on the main road from London to the north-west and at the height of the coaching era 38 coaches a day passed through the town. Abbey Street, rather than Lichfield Street was the main route into the town, and the Crown Hotel in the High Street was an important coaching inn.

The Crown Hotel was designed by the famous architect Henry Holland and replaced a much earlier Crown Inn. The end of the coaching era came swiftly after the opening of the Grand Junction Railway in 1837. By 1841, Pigot's directory evidences a much reduced service, with coaches running from Stone to Norton Bridge, the nearest railway station, and one daily coach to Stafford and the Potteries. As railway lines spread the roads fell into disrepair and did not recover until the 20th century.

## Industry:

Early beginnings of the boot and shoe industry in Stone can be assessed from 1756 documents. By 1851 White's directory listed 16 manufacturers in the foot-wear industry in Stone, with the provision of leather from tanneries situated at the south end of Crown Street. Whilst initially most of the work was undertaken on a domestic basis, over time there was a growth in factories and sizeable workshops, employing 20% of households within the urban parish. The last quarter of the 19th century brought difficulties for the trade and in 1910 four local shoe firms merged. Lotus Ltd eventually became the last remaining business, which eventually amalgamated with the Stafford and Northampton concerns.

Due to the quality of the local water beneath Stone two brewers were located here carrying on the Augustinian monks' tradition of beer making. The most notable was John Joule's & Sons Ltd, established in 1780. The company was acquired by Bass Charrington in 1968, and ceased brewing at the end of October 1974. The adjacent bottling plant was closed some years before. The canal played an important role in the export of beer. Joule's draught beer stores and bottling plant remains an imposing building on the canal, and can be clearly identified by the red cross logo of John Joule's in the brickwork.

The second brewer was Montgomery & Co, acquired by the Bent's Brewery Co of Liverpool in 1889. The brewery was located on what is now Mount Industrial Estate. It was also taken over by Bass and closed on 31 March 1968.

Stone also had a brass industry sited around Brassworks Farm. The farm and a short row of cottages are the only visible remains today. The works were sited to take advantage of the opening on the Trent and Mersey canal. This brought supplies of copper and

cast from the Cheadle area and transported the finished goods of rolled sheet and wire. Coal was brought along the canal, although a stream gave a supplementary amount of water power.

The venture, whilst successful was relatively short lived, with actual brass working only carried out between the years 1794 to 1830. The lower part of the Moddershall Valley lies within the Parish. The valley as a whole, which has the Scotch Brook at its heart, is unique in that its watermills using wet ground flint and bone processes were essential for the production of white ware, china and porcelain for the Potteries. This allowed the pottery industry to flourish, resulting in famous names such as Wedgwood and Spode, amongst others, becoming part of our national heritage. Within the parish, Coppice Mill began its life c1720's as a paper mill linked to Foudrinier, before converting to grinding flint in the 1800's. The Flint Mill, next to the Mill Restaurant, was only recently discovered and its restoration and conversion to domestic use was one of the projects in the Channel 4 Restoration Man series of programmes. Remarkably seven of a total of 10 watermills in the valley remain in various states of repair, due in main to the fact they were still functioning up to the mid-20th century.

## Town Crest:

The crest of Stone represents the present and former industries of the town and county. The wheat sheaf represents agriculture, whilst the tun represents the brewing industry. The chevron and the Stafford Knot are taken from the county crest. The two black lozenges represent that Stone lies between the former North and South Staffordshire coalfields. The shoemaker's knife and awl represent the town's once famous boot and shoe industry. The coat of arms is surmounted by the mantling and a demi pegasus issuing from a Naval crown taken from the arms of John Jervis, Earl St Vincent. The motto: Sit Saxum Firmum is Latin for Let the Stone be Firm.

# Demographics:

Stone is a relatively affluent market town with both a growing and ageing population. As detailed earlier, according to the 2011 national census the population of the town was 16,385, an increase of 33% since 1991 and an increase of 11% over the 10 years since 2001. An estimated 49% of the population fall into socio-economic groups A, B, C1 compared with 41% for Stafford Borough as a whole.

According to the Staffordshire Observatory, the population of Stone can be anticipated to increase by at least a further 20% by 2031 implying a population of 20,000. This growth will be driven

primarily by new housing and increased longevity. The residents live in approximately 6,500 households providing an average number of inhabitants per household of 2.5.

The number of senior citizens is expected to double over the period between 2011 and 2031 and may represent 35% of the population (7,000) by 2031. According to EJNSA, a least 15% (1,000) of this older population may be living alone.

These headline figures are:

# Education:

Stone has a three tier education system which is operated by Staffordshire County Council. Young People attend first school from ages 4 to 9 (reception to year 4), then one of the two middle schools from age 9 to 13 (years 5 to 8), and finally Alleyne's Academy from age 13 to 18 (Years 9 to 13).

The schools within the Stone Neighbourhood Plan area are shown in the table below.

Age Range	School Name & Address			
13 - 18	Alleyne's Academy, Oulton Road			
9 - 13	Christ Church Academy (C of E Middle School), Old Road		Walton Priory Middle School, Beacon Rise	
4 - 9	Christ Church (C of E First School), Northesk Street	Manor Hill First School, Manor Rise, Walton	Pirehill First School, Tilling Drive, Walton	St Michael's C of E First School, Weavers Lane

In addition to state schools there are two faith schools, namely St Dominic's Catholic Primary School, part of the Holy Trinity Academy which takes children from ages 4 to 11 and feeds into the Blessed William Howard School in Stafford, and St Dominic's Priory School RC, an Independent School taking children from nursery age up to 16.

Whilst Stafford Borough Council are not responsible for education and learning directly, they do offer plenty of useful information and provide relevant contact details and web links for important topics within this area. See: <http://www.staffordbc.gov.uk/education-and-learning>

Further information about the admission process in all our state schools can be found on the Staffordshire County Council website. See: <http://www.staffordshire.gov.uk/education/home.aspx>

Ofsted Reports on schools in the area including pre-school choices can be found at: <http://reports.ofsted.gov.uk/inspection-reports/find-inspection-report/results/any/any/any/any/any/any/any/st15%208qw/5/any/0/0#search2>

Stone residents feel the town has a good education system although they acknowledge its resources are being put under pressure with the increase in population. This is currently being absorbed within the existing provision but new housing development in the Walton area of the town will require community infrastructure provision to deliver education contributions to primary, middle and secondary school facilities with most of this being targeted at Manor Hill First School.

# Business and Employment:

Stone is a vibrant town with a diversity of business and employment, covering a wide variety of industry sectors. In recent surveys the 3 largest are wholesale, retail and motor vehicles at 16%, health and social work at 15% and 12% in manufacturing. These are either in line with or greater than the national percentages.

Stone has a good mix of businesses in the dedicated areas of Stone Business Park, Whitebridge Industrial Estate and the much smaller Mount Road Industrial Estate, all of which are situated on edge of town sites. These businesses maximise the excellent access to the road networks without infringing upon the residential areas of the town. Within Stone, there are a number of SME businesses in addition to the retail outlets. These include design and printing, picture framing, fork lift sales and maintenance, and animal healthcare products. In addition, the area also supports a number of unique companies such as local breweries and notably Tim Toft Violins, located in the main town centre, one of Europe's leading string instrument makers and retailers.

Stone offers prospective businesses an ideal location in which to set up, with a wealth of good local talent, (Alleyne's Academy and St Dominic's Priory Schools produce above average performing pupils), an excellent road infrastructure network by virtue of its proximity to the M6 and the cross country A50, and being within 1 hour of 3 international airports. As a pleasant place to work, Stone offers the ideal blend of vibrancy and peace in equal measure.

Employment within Stone takes on many forms covering all ages and genders. This is particularly well represented in the entertainment sector, where Stone has a very wide ranging and lively choice of dining out locations in and around the town. These range from small individual cafes and restaurants, through to large chains often seen in other towns and cities around the UK. The town boasts almost every type of cuisine whether it is Chinese, Indian, Italian, Portuguese, Thai, American and of course English, all providing a high level of service and excellence that continues to attract visitors back to the town.

## Which sectors do Stone's residents work in?

# So what about the future?

Stone continues to grow, with new businesses locating in the town attracted by the overall benefits it has to offer. A new Business Park project at Meaford will further continue this growth, creating several hundred jobs just two miles outside of the town centre over the next two to five years. This investment will no doubt have a positive effect on the smaller SME businesses in the town, as there will be opportunities to supply goods and services to those companies who choose to locate to the new park.

Focus also has to remain on ensuring a sustainable High Street, as similar to many other retail areas in towns and cities around the country, Stone's High Street has faced gradual decline, with the loss of retailers and hence consumer choice. This decline is a result of many factors including the rise of out of town shopping, growth of internet retailers, increased business rates, poor car parking and a loss of relevance of the High Street to consumers. To expect to reverse this decline and return the shopping experience to halcyon days of old is unrealistic, but conditions can be improved to make the High Street fit for the

21st Century where experiential services will ensure a positive future. In terms of food retailers, the Stafford and Stone Town Centre Capacity Assessment dated January 2011 identified the need for a further significant retailer to service the growing population and the site determined was in Westbridge Park.

The current independent retailers and service providers such as hairdressers, DIY and general hardware/home stores would benefit from Council led initiatives to promote Stone, giving consumers a reason to visit the town to supplement footfall builders, such as the monthly farmers' market. Council initiatives to support new start-up businesses such as business rate holidays and business advice could also encourage further diversity in retailer provision within the town.

## Community Facilities:

Stone has a lively community life with a wide range of facilities and assets in the town including Walton Community Centre and the recently opened community Fire Station located on the A34 in Walton.

Stone Town Council leases the Frank Jordan Community Centre, which is on Lichfield Street at the bottom of the High Street, and this is regularly used by community groups and organisations such as Stone Community Hub and the Endeavour Youth Club.

Stone Railway Station, a transport hub in the town, was built in 1848 and designed in the typical North Staffordshire neo-Tudor style by H.A Hunt. The station, a Grade II listed building renovated by Stone Town Council in 2004, now offers community rooms and meeting spaces. This is situated off Station Road in Stone with free parking.

In the centre of town there are a number of coffee shops, restaurants, public houses and cafés.

The Crown Hotel is situated in the centre of the High Street, and is a Grade II listed building. It became a hotel in 1834 and is still trading today.

Westbridge Park is in the centre of Stone with a large grassed area to the right hand side and a fitness centre on the left, run by a not for profit organisation. Westbridge Park takes its name from Westbridge House which once stood where the children's play area is today.

Stonefield Park is situated at the top end of Stone off Field Terrace. The park has a newly refurbished children's area, tennis courts and a bowling green along with well stocked flower beds.

Stone Common Plot is a unique area of pasture and woodland managed by a group of Trustees representing the Town of Stone and the surrounding Rural Parishes. It is managed to meet the strict requirements of the Natural England higher-level stewardship scheme. This is to help protect the pasture, which abounds with historic features, a unique hay meadow, ancient hedgerows and extensive woodland, each of these hosting and supporting an extensive array of flora and fauna. As part of the management Stone Common Plot offers up to 20 hectares of summer grazing land, managed by the Charitable Trust.

# Culture:

Alongside those aspects of Stone Town that can be defined with relative ease (such as tourism, and sports and recreation), there is a rich tapestry of organisations which provide much of the character of the town as a neighbourhood.

Stone has a long Christian heritage dating back to the seventh century and the martyrdom of Wulfad and Ruthin. St Wulfad is commemorated in the name of St Michael's and St Wulfad's Church, the longest established church in the town. Christ Church joined it as the second Anglican Church, in the nineteenth century. Stone was also a centre for the Roman Catholic revival and St Dominic's is an important feature of the town. The free church, St John's, is still active albeit no longer in its original building.

Music and dance are prominent with the Stone Choral Society (nearly 50 years' old), the Stone Town Band and the Scout & Guide Band performing regularly, now joined by the Cantiamo Chamber Choir. The Stone Recorded Music Society, the Blue Diamonds Square Dance Club and the Stone Scottish Dance Group must be added to this, along with the theatre groups, namely Stone Revellers, Rooftop Studios, Pop and Stage Academy, and Chuckle Productions.

A keen interest in horticulture is evident not only by the number of allotments in the town but also by specific organisations such as the Stone Flower Club, the Gardening Club of Stone, Stone Chrysanthemum and Dahlia Society and the Stone and District Begonia Society.

There is a wide variety of charitable and community support organisations, ranging from the Freemasons, Rotary and Lions through Probus, U3A and the Women's Institute, to the Red Cross, the Community Hub and First Responders. Stone in Bloom, the Stone Festival Committee and the Stone International Friendship Association should be added to this list, as too must be the ex-services organisations: the Royal British Legion and the Royal Air Forces Association.

The younger age group are catered for by the Endeavour Youth Club, the Scouts, the Girl Guides, St John's Ambulance and the two successful military cadet groups, the Stone Detachment (Mercian) of the Army Cadet Force, and No 2352 (Stone) Squadron of the Air Training Corps.

Other special interest groups include: Stone Watercolour Class, Stone Civic & Historic Society, North Staffordshire Association of Bell Ringers, the Stone & District Motorcycle Club and the Stone Patchwork and Quilters.

It is unfortunate that the town does not have an adequate community centre where all these organisations can meet. This is a particular challenge for the performance groups who desperately need a well-equipped auditorium seating at least 250 people.

# Traffic and Transportation:

Stone historically has always been an important town in terms of road connections to other parts of the country. Stone's location on the major road route between London and Chester, and ultimately to Ireland was a significant factor in the town's growth and continuing importance. This route was described by Ogilby in 1675 as "...one of the most frequented roads in the kingdom". Stone lay at the junction of this road with another major road from the south via Birmingham and Stafford to Manchester and north to Scotland. Other roads approached from Eccleshall to the south-west and from Leek to the north-east.

Stone continues to be well connected by road to surrounding towns, but also further afield due to its location mid-way between junction 14 and 15 of the M6 and its easy access to the A50. Being only a seven to ten minute car journey away from all these major routes, it allows ease of access to both north and southbound journeys of the M6 and eastbound along the A50 to the M1 and the full motorway networks. The result is that Stone is very much a commuter town with heavy reliance on car usage.

Getting to work figures taken from the 2011 census over the 3 wards in Stone show the following data, confirming the heavy reliance on cars:

**5,747 people use cars or vans (2,002 from Walton Ward, 1,918 St Michael's Ward, and 1,827 from Stonefield ward).**

**302 people use trains or buses (87, 80, and 135 respectively)**

**797 people work at or from home (225, 274, and 298 respectively)**

**1455 people use other methods i.e. taxi, motorcycle, bicycle, walk and passengers in cars (529, 362, 564 from the respective wards).**

The disadvantage of the proximity to the M6 corridor is that when accidents occur on this section of the motorway, and this is not infrequent, the traffic is diverted onto the A34, a dual carriageway road which bisects the parish in two. This results in very heavy traffic congestion across the local road network, which currently at peak times, is already congested. The PfSB acknowledges there is already congestion on the A520 Leek Rd into Stone and similarly the B5026 from Eccleshall which takes the traffic from the residential areas of Walton down to the A34. Alleviation of this congestion is a significant concern to local residents, particularly as Walton is currently accommodating an expansion of 592 homes within the area over the plan period.

Stone as highlighted in the PfSB has an oversupply of 4 and 5 bedroomed houses which results in a higher proportion of 2+ car families. The use of bicycles as a mode of transport to work is very limited.

Whilst the PfSB attempts to encourage more sustainable methods of transport with the aim to improve links by public

transport from the surrounding hinterland through better bus services, the reality is that bus services are currently being reduced. The 101 is the only bus giving a good regular service to both Stafford and Newcastle/Hanley. Other bus services are irregular and whilst servicing employment areas out of the town for those who have early start times, the same cannot be said of those office personnel who commence work later. Furthermore, the local bus services which operate within the town's residential areas do not start early enough to accommodate those who would wish to catch a bus or train from Stone Town Centre to get to work for 9am. Dedicated earlier buses which link to these services could incentivise individuals to relinquish their reliance on the car. Further bus provision will also be required with the expansion of the new Business Park at Meaford, and the building out of the Strategic Development Location site at Walton over the plan period.

Stone's only High School, Alleyne's Academy also generates significant cross town vehicle movements and hence congestion, due to a lack of bus services at appropriate times.

Stone's rail service resumed in December 2008 after some years of rail replacement bus services, and prior to 2003, a very poor stopping service for the Stoke to Stafford route. Since the London Midland Trent Valley trains started calling at Stone in 2008 passenger numbers have increased by 10% yearly to 103472 in 2013-2014. The latest set of passenger figures recorded 127,608 in 2016/17 which is up 17% on the previous year. Commuting to Stoke and Stafford is well used but the journey to Birmingham has been discouraged by having no convenient early evening return journey. Commuting to the north requires train changes at either Stoke or Crewe. However off-peak services and weekend use for leisure purposes continues to rise, given the reasonable train fares, particularly to London.

Rail access to Stone is provided through the two sections of the West Coast Mainline and much has been done to improve rail usage over recent years. Improving access to the railway station and secure appropriate levels of parking for both cars and bicycles is a priority, as is ensuring there is adequate provision for taxis through extending existing or creating new appropriately placed taxi ranks.

Network Rail will be consulted on planning applications affecting railway infrastructure. The national rail infrastructure project HS2 has a planned new Railhead and maintenance base within the Neighbourhood Area and the high speed rail route from London to the North-West passes through a small proportion of the Neighbourhood Area also

Stone is an important canal town and the Trent and Mersey Canal brings tourists into the town. There is good provision for canal boats with services provided at Stone Town Boat Yard and Chandlery, and nearby at Aston Marina.

There is a service run by Age Concern which offers elderly residents transport to hospital appointments. Serviced by volunteers it is under pressure and will become even more so as the population of Stone ages.

# Infrastructure and Environment:

To accommodate the above mentioned traffic congestion and to relieve pressure points on the road network at roundabouts, as well as the A520 through the town centre, it is envisaged transport management schemes will need to be implemented over the plan period. Local highway improvements and enhancements of the B5026 Eccleshall Road/A34 roundabout and the A34/A51 roundabout will also be required.

The development of walking and cycling connections, accessible to all members of the community, by extending existing foot and cycle paths together with the creation of new ones as an integral part of new developments, are vital for encouraging a reduction in car journeys, both to local employment sites and to the town centre itself.

An important consideration in terms of new residential development at Stone, will be the potential impact of additional foul water flows on the current sewerage system. During times of heavy rainfall, the capacity in parts of the sewerage system can be exceeded resulting in localised sewer flooding. Depending on the location of development, additional sewerage capacity may be required to reduce flood risk. New development to the west of Stone will drain via an existing sewage pumping station at Westbridge Park, where capacity assessments will be required to determine whether further capacity is required. Any capacity improvements will need to coincide with development construction.

Information from Severn Trent Water has identified that any "on site" mains required for particular developments will need to be met by landowners and developers. Off-site reinforcement will be required to secure levels of service to Stone. Current proposals are to reinforce the trunk main network in Stone. It was planned that this should be constructed by 2016.

With regard to community infrastructure provision, new development should be required to deliver education contributions to primary, middle and secondary school facilities in Stone. Significant development in the Walton area of the town may require improvement of existing school sites in the locality.

Electricity providers have identified that the 11kV infrastructure in Stone is at capacity and therefore new development will require local improvements with further details to be provided by Central Networks. However, no major gas infrastructure would be required in Stone, with 'standard' connections to the medium pressure system to be provided by developers.

The map illustrates the general topology of Stone with its two main urban areas straddling the Trent flood plain. The orientation of the landscape determines the general north/south orientation of the town. Hence communication routes follow the same patterns with 4 lanes of the A34, the Trent & Mersey Canal, the River Trent and a branch of the West Coast Mainline rail link all following the same direction. These transport links provide important gateways into Stone (shown by the red arrows).

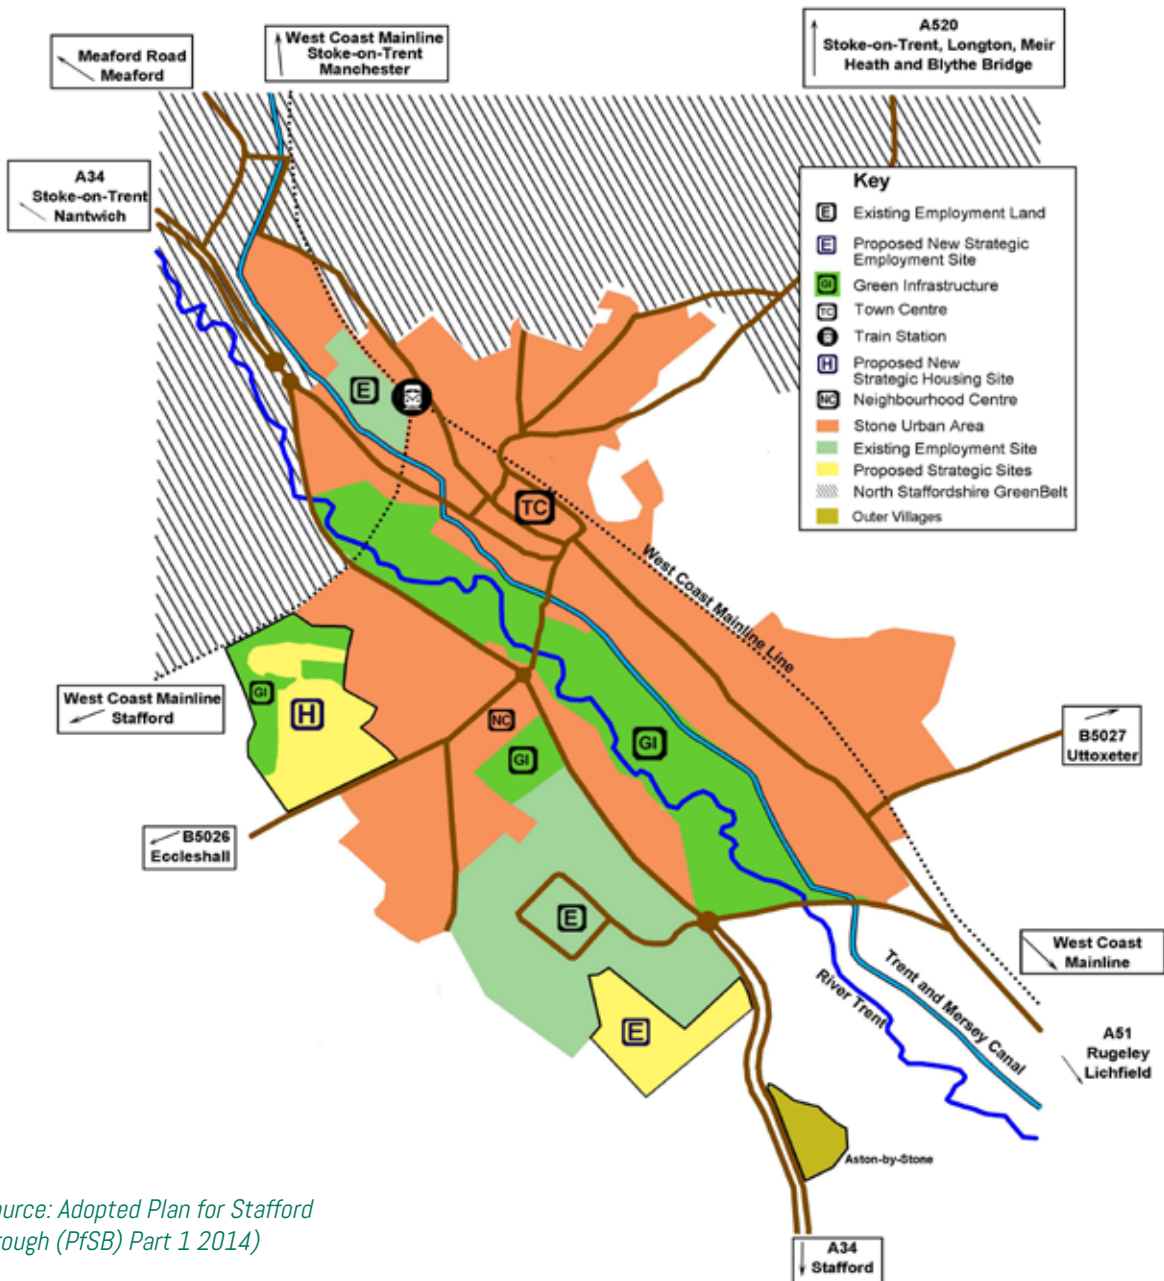

The main provision for Green Infrastructure (GI) is along the River Trent flood plain, although as identified on the map, GI will be strengthened on part of the perimeter of the new strategic housing development scheme marked (H), increasing provision and enhancing biodiversity assets within and around the town. The new development, marked H, plans to deliver approximately 500 new homes with 32% being affordable housing in the context of Policy C2, through a mix of housing types, tenures, sizes and styles with proportions of 2, 3 and 4 bed roomed properties.

Stone has two main existing Business Parks, Whitebridge and Stone, highlighted in pale green and marked E on the Plan. It is the intention of the Borough to add at least 18 hectares of new employment land, highlighted in yellow and marked E on the map, south of Stone Business Park. Just outside the Neighbourhood Plan area, to the north, is the developing Meaford Business Park.

In addition to the above GI, the Common Plot, Walton Common and nearby amenity areas of the Downs Banks and Aston Nature Reserve also provide important assets close to the town. Another major open green space is provided through the Well-Being Park located between Stone and Yarnfield and home to Stone Dominoes Football Club.

## Map 10 Stone Town Key Diagram

Stone Town Key Diagram

### Stone Town West and South Infrastructure Requirements

Infrastructure Category	Requirements	Phasing	Capital Cost	Funding
Transport	An access, transport and travel plan strategy for the Strategic Development Location that maximises travel and accessibility by non-car transport modes via safe, attractive and conveniently designed street, pedestrian and cycling connections within the development and to Stone town centre, nearby existing and new employment areas. The strategy shall identify access points to the site and between the site and the existing settlement. It shall also identify construction access arrangements that do not disrupt existing residents and improvements to transport capacity along the B5026 Eccleshall Road, and at the A34 roundabouts	2011-2031	TBC	None committed, but potential sources include:  Developer contributions
Nature Conservation and Biodiversity (CRITICAL)	Suitable Alternative Natural Greenspace to be provide through (a) on-site open space provision, (b) management of Cannock Chase, or (c) contributions towards 'Suitable Alternative Natural Green space' (SANGS) elsewhere.	2011-2031	TBC	Developer contributions and / or direct provision.
Electricity (CRITICAL)	Connection to grid. Provision of a local electricity sub-station.	2011-2031	£4m	Developers will be required to pay for connections.
Gas	Reinforcement for housing sites	N/A	£150-250k (TBC)	TBC
Potable Water (CRITICAL)	Reinforcement of the water supply required. 1.2km of 450mm pipe in A34 Stone required to protect water levels of service in Stone	2011-2031	£1.7m	Severn Trent (AMP5). Developers funds on site mains
Sewage	Notional modelling indicate additional flows from housing is not expected to have significant impact on sewer capacity with foul flows draining to an existing sewage pumping station at Westbridge Park. Capacity issues are	Lead time of 3 years	£5.2m identified for all SDLs at Stafford and Stone. Investment allocated when	Not in current Asset Management Plan
	not envisaged with the new employment area due to the proximity of the sewage treatment works		new development is delivered	
Education	Extension of existing secondary school required to accommodate projected growth in pupils. School to be expanded yet to be determined.  New Primary School provision to be included in Master Plan	2016+  2016+	£2m (TBC)	DfE Capital Programme (under review) / Developer contributions.  Developer contributions
Primary Healthcare	Project in development which could serve new development on the West of Stone	2016+	£5m (TBC)	GP consortium.
Telecommunications	Stone exchange is enabled with Superfast Fibre Access Broadband. No cost implication for developer over standard telecommunications infrastructure.	N/A	TBC	
Open Space	Will need to be planned in association with requirements for SANGS and local standards of provision.	2016+	Unknown	Developer contributions.

(Source: Adopted Plan for Stafford Borough (PfSB) Part 1 2014)

# Green Space:

In March 2012, the Government made it possible for green spaces with a special community importance to qualify for a new protection status. This status is known as 'Local Green Space'. The Local Green Space status has been made possible through the introduction of the Localism Act and Natural Environment White Paper (2011) which influenced the policies in the National Planning Policy Framework, (NPPF).

The Natural Environment White Paper 2011 highlighted the "importance of green spaces to the health and happiness of local communities". Green spaces, particularly 'natural' and 'semi-natural' green spaces, located close to local people provide a range of social, environmental and economic benefits including improved mental and physical health, increased social and physical activity and improvements to children's learning, improved community cohesion and sense of place. Environmental benefits include making places more attractive to live, work and play as well as investing in and enhancing wildlife habitats and corridors, whilst providing for climate change adaptation.

The act of designating sites as Local Green Space is not intended to be a reactionary exercise which only takes into account sites under threat from development. Based on information in the UK Natural Environment White Paper (2011), the act of designating sites for Local Green Space protection is seen as a positive step towards recognising an area's unique value and worth.

Broad guidance for identifying sites worthy of Local Green Space designation is provided in the National Planning Policy Framework (paragraphs 76-78). Further guidance is available in the Planning Practice Guidance, (PPG), Local Green Space Designation document dated 06/03/2014. (See Appendix D for more details of the relevant National Planning Policy Framework and Planning Practice Guidance paragraphs).

With the inevitable increasing population of Stone comes the requirement to ensure that adequate and readily accessible local green space, and particularly natural and semi natural green space, is available for the community to enjoy.

A key aspect of what makes Stone an attractive and desirable place in which to live is the current positive balance between green space, natural and semi natural green space and the built environment, which generates an overall 'feeling of space' as you move around the parish. Furthermore every approach into the town, be it by the A34 and Stafford Rd, A520 Moddershall Valley, the B5027 Lichfield and B5026 Eccleshall Roads, has trees and green space creating a pleasing experience and tempting visitors to explore the area further.

In designating the areas of Local Green Space in this Neighbourhood Plan, the aim is to preserve, and where possible, enhance such areas, thus maintaining all that is special and unique to Stone.

An assessment of green spaces across the town has been carried out using the NPPF criteria, and over 50 sites have been identified as Local Green Spaces. This assessment forms part of the Neighbourhood Plan evidence base. Following earlier community engagement the importance and value of Local Green Spaces within Stone was acknowledged. As such volunteers undertook an audit of all existing and potential spaces, which provided a comprehensive list of sites identified for community consultation as possible Local Green Space. Following the community consultation including work with statutory bodies, landowners, sports and social clubs and the wider community, the areas in Appendix D were formally nominated as Local Green Spaces. During the preparation of the neighbourhood plan and Local Green Space consultation in 2016 and 2017 each site was tested against the criteria set in paragraph 77 of the NPPF 2012. Following the release of the NPPF in July 2018 all of the proposed Local Green Spaces have been tested against paragraph 100 to ensure they are compliant with the revised criteria.

Examples of identified Local Green Spaces include:

**Westbridge Park:** Westbridge Park is the largest park in Stone providing leisure and recreational facilities for the whole community. It takes its name from Westbridge House which once stood where the children's play area is sited today, and presumably that name had its origins in the fact it was west of the bridge that spans the River Trent. It is bounded by the Trent and Mersey Canal to the east and the Trent to the west. After the war and under the ownership of Stone Urban District Council, Westbridge House was demolished, and in 1951 the Park was opened as part of the Town's Festival of Britain celebrations. To commemorate the event, a pair of wrought iron gates were produced by a local blacksmith which still remain today at the pedestrian entrance. Some twenty two years later, agreement to the transfer of ownership of Westbridge Park to Stafford District Council, (now Stafford Borough Council), is evidenced in minutes of Stone Urban District Councils' meeting of the 18th December 1973.

The Park comes within the remit of policy CAF3, in that it is a recognised Asset of Community Value. It contains expansive areas of natural and semi natural green space along with two football pitches, a formal children's play area, scout and guide buildings, and a fitness centre. It is also the home to the prestigious Stafford and Stone Canoe Club which since its establishment in 1973 is now recognised as one of Europe's foremost canoe slalom clubs producing world class canoeists for GB teams. The Park provides a venue for many of the Town's annual events, and is a focal point for festivities during the week long Summer Festival in June; the Spring Fun Fair; the Stone Food and Drink Festival on the first weekend in October, which has grown to become one of the Midlands' biggest and busiest gastronomic events; and the Stone Town Bonfire. As a contrast the Park also offers the opportunity for peaceful walks, both along the river and within the meadows, where the adjoining woodland is also rich in flora and fauna.

Tilling Drive Allotments: These allotments have existed for at least 40 years and contain around 100 plots. The land, previously owned by a private company, was donated to the community, resulting in the formation of Community Interest Company which oversees the allotments. The allotments are very well tended, and evidence a strong and inclusive community ethos with a communal area, a section for children to grow produce and an easy access area with raised beds. In particular, the 2014 Stafford Borough Council Green Awards commended these allotments for their 'Community Area'. They are highly valued by the local community for the benefits they bring such as exercise, a healthy lifestyle, the provision of home grown produce, and the opportunity for social interaction with like minded people.

Nicholls' Lane: Is a Natural and Semi-Natural Greenspace situated on the north-east periphery of Stone and lying within the Moddershall Valley Conservation Area. It is in private ownership. It has a public footpath, (Stone Town 13), which crosses the field south west to north east that is used on a daily basis, and particularly so by dog walkers, who may let their animals off the lead because there has been no grazing stock for many years. Other well-worn paths cross and circumnavigate the field. It is also used for other forms of informal recreation such as picnicing and sledging both in recent times and historically. The field abuts woodland designated as both a Site of Biological Importance for its flora, and a Local Wildlife Site.

It is part of the green corridor formed by the valley, which extends outwards from the town to the Green Belt in the north and east. In this location the Green Belt defines the boundary of both the field and the town. The field has been subject to a planning application which was dismissed on Appeal, ref APP/Y3425/A/13/2203362. It is very highly valued by the local community who enjoy the beautiful views across the valley, its tranquillity, historical significance, and plentiful wildlife.

Millennium Way: This area of approximately 1 hectare encompasses five distinct and different sized parcels of landscaped amenity green space, planted with both trees and shrubs, which are bisected by the feeder road from the A34 to the Whitebridge housing development and Industrial Estate. These parcels of land also back onto the Trent and Mersey Canal and incorporate land to the east of Millennium Way. Together they constitute a significant piece of open space for informal recreational use by the community, as well as providing a habitat for wildlife, a paved link to walks by the canal and the countryside beyond, and enhancement of the entrance to the large Whitebridge housing development. All these factors help to promote a sense of well-being for the local community in the area. The section immediately next to the A34, which is planted with wild flowers, also creates a sense of space which is replicated in the main, on other gateway approaches into Stone, and is perceived as an important feature of the town.

# Sport & Recreation: Stone's Sporting Future:

Stone residents of all ages are able to enjoy a variety of ways of keeping 'physically active'. These range from active play in dedicated play areas for young children to more traditional activities such as all the popular racket sports, through to studio fitness/mobility/dance classes for the young persons and adult population. For those who enjoy water sports there is a swimming pool situated at Alleyne's Sports Centre, and at the renowned canoe club on the river Trent, it is possible to train alongside International and Olympic canoeists. The area is also particularly strong in club cricket. Stone Hockey Club, Stone Dominoes Football Club play at nearby pitches situated outside the town boundary.

At a gentler pace, Stone has many suitable areas and dedicated footpaths for walking, and allotments are available on five sites for those who wish to enjoy the outdoors whilst producing their own food.

Senior residents have provision supported by U3A, for example, croquet and bowls is available at Stone SP Cricket Club.

The 'having fun in the outdoors' community spirit within the town is promoted by its various festival activities which include a raft race, dog derby, duck race and running event. These competitions are enjoyed immensely by participants and spectators alike. Moreover, Stone residents embrace national sporting events, evidenced by the large turnout to watch the Tour of Britain Cycle Race passing through the town.

The Trent floodplain containing local meadows and the town's main riverside park, makes a vital contribution to the well-being of Stone's population. Footpaths for walkers and routes for

cycles cross these areas. These spaces are complemented by the Edwardian 'Stonefield Park' and the recreational space on Tilling Drive. In close proximity to the flood plain are other natural and semi natural green spaces which include, 'Walton Common' and the ancient meadow of the 'Common Plot'.

As previously highlighted, just outside the Neighbourhood Plan area is the 'Downs Banks' (National Trust), and Aston Marina (a popular local leisure & recreational centre). The lower section of the Moddershall Valley Conservation Area lies within the Neighbourhood Plan boundary and has a public footpath, (Stone Town 7), linking into the town via the Coppice Gardens housing development.

Most of Stone's more traditional sports capacity is located at Alleyne's Sports Centre, Westbridge Park Fitness Centre and Stone Lawn Tennis & Squash Club. Two local cricket teams have their own facilities and one has hosted Minor Counties cricket in the past. Additional unmet demand is also taken up by small dedicated facilities in the private sector particularly in the areas of fitness and swimming whilst school halls provide additional capacity for fitness and dance classes.

It will be the aim of the Neighbourhood Plan to work with approved interested parties which promote the five key outcomes of the Government's new sporting strategy 'Sporting Future Accessibility'; physical well-being, mental well-being, individual development, social and community development, and economic development.

# Tourism:

Stone is winner of nine consecutive gold medals, awarded to the town by the Royal Horticultural Society's Heart of England in Bloom. Stone is an attractive visitor destination and all efforts should be made by local authorities to provide affordable long stay and short stay parking, upgrade street furniture and maintain the canal and riverside walks.

Stone is a popular canal and market town, with good road, rail and canal links, close to many great tourist attractions such as Trentham Estate, Alton Towers and Wedgwood Pottery, all easily accessible from the town. Promotion of Stone's close proximity to these destinations should be maximised to encourage the passing tourism trade.

Stone has a great reputation for its festivals and street parties and every effort must be made to improve the marketing and promotion of events such as:

- Weekly Town Market.
- Monthly Farmers' Market and Craft Market.
- June: the week long Summer Festival.
- July: Music Festival (Market Square).
- October: Stone Food and Drink Festival, one of the Midlands' biggest and busiest food festivals attracting thousands of visitors to the town.
- November: Christmas Lights Switch On with a spectacular display of Christmas trees and lights, late night shopping, and fun fair.

- November: the annual bonfire held on Westbridge Park.
- All year round Stone in Bloom.

Events attract visitors who have the maximum effect in boosting the local economy by enjoying the hotels, bed and breakfasts, unique independent High Street shops, restaurants and the Real Ale Trail pubs. The canal particularly attracts visitors to Stone from a wider area, and more moorings are essential to encourage longer stays in the town. Tourists who are looking for a more serious experience can trace the old market town history back to medieval times. St Michael's and St Wulfad's Church has a 12th century seal matrix of Stone Priory permanently on display. The seal attracts tourists from the UK and many parts of the world.

Also within the town boundary lies the lower section of the Moddershall Valley Conservation Area, which contains two out of an original ten watermills along the whole valley, which ground flint and bone to supply the developing, and eventually, very successful pottery industry in Stoke on Trent. Consequently there is potential to promote them as a further tourist attraction.

Stone has an established tourism base during the specific season of June to November. A programme should be developed, marketed and promoted to generate tourism during the town's "off season" to increase revenue for local businesses.

# Character Areas:

The Stone Urban area comprises two distinct settlements: that to the east of the River Trent (which can itself be divided into 3 distinctive character areas); and Walton to the west of the river. These settlements are separated by a green corridor around the River Trent and between the river and the Trent and Mersey Canal.

The 5 areas outlined above are described in terms of their distinctive features.

## Centre of the Town:

Much of the centre of the town lies within Stone Conservation Area. It contains mainly retail and small businesses, but there is also residential use, mainly apartments, including a number of retirement flats.

Commercial and retail uses are focused primarily along the High Street and directly off it. There is a relatively high proportion of independent retailers, a hotel, a number of banks, a GP surgery, a dental surgery, a mid-size convenience store, a number of restaurants, coffee shops and public houses, and several charity shops. There is a second larger supermarket and more apartment buildings just to the east of the High Street itself.

The High Street has restricted access to vehicles and is regarded as a safe place to walk and shop. It is home to a popular monthly farmers' market and smaller weekly market days. A number of the upper floors of the commercial units in the High Street have been converted into apartments and this seems to be a growing trend.

The building stock in and around the High Street is for the most part Georgian and Victorian. The former date from the town's time as a market town, its position on the coaching routes from London to the North and Ireland and to the arrival of the canal and its associated businesses. The latter date from the town's industrialisation and growth in the mid-19th century (notably due to boot making and brewing). There are a small number of later infill developments both retail and residential.

There are places of worship in the centre of the town and also a town hall, a public library and a community centre. To the west of the canal, the old workhouse has been converted into apartments and there is a small development of sympathetically designed new housing and a health centre.

There are more than 50 listed buildings and monuments within this area of the town of which five are Grade II\* listed. Several of the listings relate directly to the canal. There are also a number of unlisted buildings of townscape merit which provide interest and variety.

## North of the Centre:

This area is delineated by the Longton Road (A520) running north-east out of Stone through the Moddershall Valley, the Newcastle Road running north to meet the A34 and by the settlement boundary. The area is largely residential and much of it is Victorian in origin complimented by small clusters of

post war developments. Airdale Road has a distinct residential character of large detached houses set within substantial gardens. This particular character provides a well-designed 'edge of development' facing towards the open countryside shown in Appendix B.

Part of the area lies within Stone Conservation Area, notably King's Avenue, Granville Terrace and The Avenue. Most of the housing stock dates from mid-Victorian times with a few later Victorian/Edwardian houses and a few more modern infill developments.

The Victorian/Edwardian properties lying within the Conservation Area are typically large 2 or 3 storey properties with small frontages and sizeable back gardens. There are also a number of large properties of the same period on Oulton Road, many of which have extensive land attached and in some cases this has been sold off for small scale infill development.

Most of the remaining area consists of Victorian terraced streets of which were once factory workers' cottages. These have no front gardens or off-street parking, but enjoy modest back gardens. Good examples of such properties are to be found around Stonefield Park.

Properties a little further from the centre of town in and around along Mount Road and Newcastle Road consist largely of mid to late 20th century housing. Beyond the Newcastle Road and at the end of Mount Road and bounded by the canal, Navigation Loop, is a modern housing development comprising, for the large part 4 and 5 bedroom houses interspersed with some smaller properties and apartments.

Just north of the centre there is the 19th century St Dominic's Church, alongside St Dominic's School and Care Home. A little further north is the Grade II listed Railway Station and on the Newcastle Road, the Stone Tennis and Squash Club.

At its farthest reach, the area to the north is also home to 2 light industrial estates and there is also light industry and commercial offices situated in the old Joule's Brewery buildings on the Newcastle Road, close to the centre itself.

The northern area contains several places of worship and the area is served by Christchurch First and Middle Schools and by Stone's only secondary school, Alleyne's Academy. There are around 30 listed buildings and monuments in the area to the north of which 5 relate directly to the canal.

The area also contains valuable green space, notably Stonefield Park and the area is bounded to the north by the Common Plot, several acres of land left in trust and dedicated to the leisure and recreation of the people of Stone.

## South of the Centre:

The area south of the centre is delineated by the canal to its west, the A51 to the south and the settlement boundary to the east. Its main road artery is the Lichfield Road. It is

almost exclusively residential with older Georgian and Victorian housing stock close to the centre and more modern post-war developments of differing size and style lying beyond this.

Housing development along the Lichfield Road is typically of older post-war stock often set back from the road and enjoying sizeable gardens. In particular the north side of Lichfield Road between Uttoxeter Road and Aston Lodge Brook is a good example of this distinct character set within an area of denser more recent developments, shown in Appendix C.

The more recent housing, comprises a series of moderate sized developments between the road and the canal, with generally smaller in-fill developments lying between the road and the railway line.

At the limit of the settlement boundary to the south east and beyond the railway, lies the Aston Lodge Park development, with over six hundred modern homes accessed directly off the Uttoxeter Road.

There are green spaces evident across the area and other green space evident at Stone Cricket Club situated on the Lichfield Road and Little Stoke Cricket and Bowls Clubs on the Uttoxeter Road.

The area is served by St Michael's C of E First School situated on Weavers Lane off the Lichfield Road. There is also a GP surgery just south of the town centre itself.

## West of the River:

This area is bounded by the River Trent to the east and the settlement boundary to the west and falls within the Walton settlement. The main road arteries are the A34 that bisects the area north to south, and the Eccleshall road running east to west. The area is largely residential and consists for the most part of post-war housing developments. The northern boundary however, is formed by Stone Golf Club and the southern boundary by the growing Stone Business Park.

There are a number of Victorian properties along the Stafford Road, though primarily Walton comprises post-war housing developments. The older housing stock is on the northern section of the A34 (The Fillybrooks) and the Eccleshall Road close to the A34. All are set back from the road and often enjoy sizeable gardens.

Later developments continue to expand the settlement beyond its original boundaries. There are sizeable more mature developments between the river and the A34, and between the A34 and the settlement boundary, each comprising several hundred homes and a number of apartments. An infill development of modern housing is currently being built just west of the A34.

Walton is expected to see considerable further housing development along its western boundary in the coming years

with the designation of more than 500 additional houses specified in the Local Plan.

There are a number of green spaces evident and a small park and playground on Whitemill Lane. There are 5 Listed Buildings and monuments in the area that are clustered around the Stafford Road.

The area is served by Manor Hill and Pirehill First Schools, (on Manor Rise and Pirehill Lane respectively), and Walton Priory Middle School on Beacon Rise.

There are also three small retail parades in Walton, one on the Eccleshall Road just west of the A34, one on Pirehill Lane and the third at the Stafford Road roundabout. Stone Community Fire Station lies on the A34 north of Stafford Road.

## River and Canal Corridor:

The river and canal corridor runs north-south through Stone and forms in itself a distinctive character area.

To its west lies ribbon housing development and the A34. To the east, the canal and close to the town centre is mostly older housing stock, whilst further north from the town centre more modern developments are evident.

The corridor itself comprises valued green space, including grazing land, meadowland, designated nature reserves and Westbridge Park which is used extensively for leisure and recreation purposes.

Much of the river corridor is on designated flood plain.

The Trent and Mersey Canal has played an important role in the town's development, and continues to do so to this day. It forms a key element of Stone's leisure and tourism offer, and is an important part of the town's infrastructure. The canal corridor also supports a range of employment opportunities, including at the Grade II Listed Grand Trunk Wharf, which still provides boat repair services.

Each of the above five Character Areas have a distinct character. Within two of these Character Areas, Special Character Areas have been identified, namely Special Character Area North and Special Character Area South which are predominately residential comprising of properties set within large gardens. Through the community engagement, the issue of development of infill housing within garden plots was identified. The Neighbourhood Plan undertook further community engagement with residents of these two areas, proposing a policy to safeguard the gardens from development of additional residential units within the gardens, which would change and harm the special character.

On balance, reviewing the responses, the material considerations meant that Special Character Area North was proposed as a policy area and Special Character Area South, whilst still being recognised as an important area, was not included in the policy.

# Gateways and Views:

Stone is a town acknowledged for the quality of its built heritage, unique positioning alongside river and canal, excellent leisure and recreation facilities and a growing tourism sector. Its successful development and realisation of our vision will depend to an important degree upon conserving and enhancing the local character and the views in and around its town centre.

To this end it is possible to identify a number of important gateways to the Centre, each requiring specific recognition and consideration.

## Gateway 1: Stafford Road (A520)

The Stafford Road is the main gateway to the Town from the South (Stafford via the A34) and West (Eccleshall Road) and arguably the most heavily used.

The road crosses the River Trent and affords most important views along the river, across the river flood plain and meadows to the north; and across the green expanse of Westbridge Park to the south.

Particularly noteworthy are the impressive views from the road of the roof lines of the town centre straight ahead and those across Westbridge Park to the Grade II listed The Moorings and to the tower of the Grade II\* listed Church of St Michael.

## Gateway 2: Longton Road (A520)

The Longton Road is the main gateway to the Town from the north east and is also heavily used.

The road reaches the Town Centre via the northern boundary of the Stone Town Conservation Area having passed through the adjacent Moddershall Valley Conservation Area.

As it enters the town centre the road affords important views of parts of Victorian Stone and in particular the old Co-op bakery building and the imposing Church of St John, (Grade II Listed and currently unused).

## Gateway 3: Lichfield Road

The Lichfield Road is the main entrance from Lichfield and enters via the southern residential area. The road reaches the town centre as Lichfield Street, where it passes imposing Georgian and Victorian housing stock and several independent retailers. It affords important views across the town centre and of the built heritage of the High Street including several Grade II listed buildings

## Gateway 4: Railway Station/Station Approach

Stone's mid Victorian railway station is itself Grade II listed and affords an interesting entrance to the Town Centre for the increasing number of railway travellers from as far away as London to the south and Manchester and Crewe to the north.

It has an imposing and attractive facade and is positioned at the head of Station Approach, a road that leads directly into the town centre at Granville Square passing by for the most part Victorian housing stock and St Dominic's School and Church, (Grade II listed).

## Gateway 5: Trent and Mersey Canal

The Trent and Mersey Canal forms the boundary of the town centre running north to south and affords an interesting entrance to the town centre for the growing numbers of canal boat tourists.

The southern approach affords attractive views over Westbridge Park to the west and The Moorings, (Grade II listed), to the east. The northern approach enters the Town alongside the old wharves, many now light industrial units and several Grade II listed buildings and monuments.

The canal passes numerous buildings and spaces of historic interest, many of which are Grade II listed buildings or places of townscape merit including the Star Inn, the Crown Wharf, the old Workhouse (now residential apartments), the old Joule's Brewery Warehouse and the canal-side boatyards.

# Town Centre and Markets:

Commercial and retail uses are focused primarily along the High Street and directly off it. It has a relatively high proportion of independent retailers as well as retail chain stores such as W.H. Smiths, and Boots. Barclays and Lloyds Banks plus the Hanley Economic and Leek Building Society provide visitors and residents with adequate financial services. The historic listed Crown Hotel sits in the centre of the High Street.

It also contains one of the two GP surgeries in the town, one of the four dental surgeries, a number of restaurants, coffee shops and public houses, and several charity shops. There is a second larger supermarket and more apartment buildings just to the east of the High Street itself. Other services found in the High Street are three pharmacies, two opticians, and Re-Solv, the UK's leading agency working to end volatile substance abuse and support those whose lives are affected by these and other 'legal' highs.

Defibrillators are placed at either end of the town and have proved very valuable in their usage.

Stone Town Council Offices just north of the High Street along Station Road, also accommodates the Stone Police Post, a Citizens Advice Bureau and Stone and District Age Concern. Although the Police Post has no permanently based police officers on site, it is normally manned from 9am to 5pm Monday to Friday and is linked to the central Police Control Room. There are two Police Officers and one PCSO that cover Stone and the surrounding area. The CAB, due to funding cuts, has had to reduce appointment availability in Stone, requiring visits to the Stafford Office for some Stone residents. Age Concern offers a free advice service, available five mornings a week, for anyone over the age of fifty. The library in the Market Square is a focal point for information and internet access.

There are places of worship in the centre of the town, and the Frank Jordan Community centre is situated just south of the High Street on the Lichfield Road.

It is felt shop frontages would benefit from a more uniform approach, in-keeping with the Conservation Area status, creating a more attractive High Street. There also needs to be a focus on bringing new business back to the small number of vacant shops, ideally of an independent nature, which will enhance visitor interest in the town and hopefully increase footfall.

Although with restricted access during the day, in the evening the Market Square can become congested with parked cars accessing the local restaurants. It is therefore essential to retain sufficient free car parking space close to the town centre to ensure the High Street and Market Square remains a user friendly pedestrian area at any time of the day or night.

The Market Square generates considerable income for the town, and is an important public space with a cosmopolitan atmosphere, with local restaurants putting out tables and chairs for diners. Situated in the middle of the High Street, it is a multi-functional area used for social interaction for both formal and

informal social and cultural activities, encouraging residents and visitors to come together, strengthening the communal spirit of the town. Festivals and street parties place their stage in the Market Square making it the main focal point for audiences. In order to reflect the importance of the area, Stone Town Council has invested in the square, paving it with York Stone and installing electricity points available for stall holders who attend both the weekly markets and the monthly Farmers' Market.

Stone has a long history of being a market town, dating back to the 13th century and still had a livestock market until its closure in the early 1990's. For the past 12 years, the Farmers' Market has provided a vibrant street theatre on the first Saturday of every month with over 50 traders regularly attending. Currently the town's market days are Tuesdays, Fridays and Saturdays with average number of stalls being 5, 7, and 4 respectively. Every third Saturday of the month there is a Craft and Collectables Market.

The ambience that is created by the Farmers' Market is now a significant feature in the economy of the town, drawing people into the High Street and facilitating a sales peak for the local retailers. The many participating food stalls help to reinforce the town's credentials as a destination for food, drink and leisure activities. It is an aspiration to build on this success and encourage increased participation in the regular weekly markets to provide greater reason to shop in the High Street. In expanding these weekly markets, care must be taken to encourage complimentary stallholders to the existing permanent retailers, rather than introducing competitive elements.

It is believed an opportunity also exists to grow speciality markets, such as a Continental Market, Spring Themed Market, and a Christmas Market.

## Well-Being:

The importance of well-being or quality of life for Stone residents was made clear in the Neighbourhood Plan Public Consultation, when residents were invited to put forward their views about their town. The link between well-being, green infrastructure and recreation, with free access to open green space is highly valued. Westbridge Park in the middle of the town is of particular importance and the descriptive term used most was "our green lung in Stone". Local facilities such as play and recreation areas for young people are under-provided in Stone and those that do exist are poorly equipped. Westbridge Park should be the natural location for such investment.

The park is used by large groups of young people who congregate there particularly in the summer months playing games and enjoying their surroundings. It is also popular for families, young children learning to ride their bicycles, dog walking, picnics and relaxing by the canal and river. A number of running clubs, and Stone Ramblers use Westbridge Park whilst the two annual festivals held there attract visitors from a wide area. The preparation for the summer festival is enjoyed by many community groups and schools, building and making the floats, and growing and producing fruit and vegetables for the festival. The festival promotes a general feeling of wellbeing amongst a substantial section of the town's population.

Stone is home to four dental surgeries, two opticians, a number of chiropodists, chiropractors, physiotherapists and two GP's surgeries with a third close by in Barlaston. As is the case in many areas of the country, access to doctors is becoming

increasingly difficult and this is an ongoing concern raised by the community given the required housing growth over the plan period. The provision of Primary Health Care will be required to increase capacity either at existing facilities or by the delivery of a new additional service elsewhere in the town. Hospital services are provided through The Royal Stoke University Hospital and the smaller County Hospital at Stafford.

Football facilities are limited, and team rugby, netball, cricket and hockey are available, albeit some activities take part just outside the boundary of the Neighbourhood Plan Area. All these contribute to the health and wellbeing of many team members of all ages. There are a number of private golf courses close to the town and three outdoor bowling greens, plus a private tennis and squash club. Alleyne's Academy provides indoor facilities such as squash, badminton and an indoor swimming pool used by schools and members of the public. Recently St Dominic's Priory School has enjoyed great success in indoor rowing.

Stone is home to a considerable number of privately owned retirement apartments and the U3A offers a number of recreational activities held in local community buildings specifically aimed at an older generation.

It is hoped eventually, through an increase in recreational resources, that there will be satisfactory provision of facilities for all age groups, thus benefiting the health and wellbeing of all members of the community.

## Movement and Legibility:

By virtue of the A34 and A51 bypassing Stone town centre it is all too easy to drive along these routes and not notice the town.

On the main through routes, signage is bland and uninviting, often hidden by foliage and sometimes cluttered with housing development signage (see photo). In such situations passing traffic may associate bland signage with featureless town, despite the signs advertising the fact it is a Canal Town. By failing to impress and provide incentive to draw the passing visitor into the town, opportunities are lost to strengthen its economy through visitor spend. For those visitors who do come into the town, signage within the town is limited and in the wrong locations. Moreover, there are no signs thanking visitors for their visit as they leave the town boundary.

Signage, whether for road users or pedestrians, is a vital part of making Stone welcoming. Particularly within the High Street, and from the Canal for those arriving by boat, signage is essential for guiding visitors around the town, enabling them to explore and enjoy all it has to offer, as well as highlighting essential services and facilities.

Given the unusually large amount of green infrastructure with its river and canal links within a very short distance of the town centre, signage to designated circular walks would be beneficial, allowing visitors to combine a stroll with a drink or meal afterwards in the town centre, thus boosting the local economy.

It is acknowledged these are matters that cannot be addressed by policies within the Neighbourhood Plan, but in order to ensure the vitality of the town, Stone Town Council will need to work with partners to devise ways to increase visitor footfall.

The roundabouts north and south of the town on the A34 are uninspiring except for the southern roundabout in summer which is planted with wild flowers.

Ideally Stone would benefit from more signs such as the one detailed below.

### Future direction:

Stone needs:

- New eye catching signage when coming into Stone along the A34, to encourage passing traffic to take a detour into the town from the Walton or Whitebridge roundabouts.
- Clear direction and heritage signs both in the town and on the outskirts directing visitors into the central hub.
- Clear car parking signage.
- Definitive visitor information signs.
- Information Boards for visitors to stop and read – e.g. Things you don't know about Stone.
- Promote and deliver Heritage tours and walks to celebrate the diverse history of Stone and its Heritage Assets.

# Local Green Space Designation

During the community engagement of the Neighbourhood Plan, when asked the question, "What do you like about Stone and what do you think should be preserved and retained?" the highest scoring issues identified were green open spaces, with people also identifying key areas including Westbridge Park, Common Plot, Stonefield Park, Walton Common, river walks, allotments, Crown Meadow, Trent Meadow and Nicholls' Lane Field.

Further evidence was collated that also identified the canal and towpath walks as a key feature of the area, together with the river valley walks and the rural nature and character of Stone. Some of the green open spaces provide annual functions for the town, becoming the venue for events such as Stone Festival, the Food and Drink Festival and Bonfire Night. These were also cited as key aspects that people identified as responses to the question.

During the community engagement process, the further question, "What do you dislike about Stone and what are the problems that need to be dealt with?" was posed. Relating to open green spaces, the Stone Neighbourhood Plan Stage 1 consultation report also highlighted:

- Inadequate leisure facilities especially for children and young people, e.g. playground, park, cinema, youth centre
- Commercial development on Westbridge Park land or river flood plain should not go ahead; M&S / supermarket developments outside the town centre should be stopped

The question, "What do you think should be changed in Stone and what improvements should be made?" also shown in the Stone Neighbourhood Plan Stage 1 consultation report highlighted:

- Provide new improved leisure centre with sports facilities, swimming pool, fitness and play facilities at Westbridge Park.
- Put a limit on further housing growth and expansion of the town; no more building on floodplain; any growth should have corresponding improvements to infrastructure and services.
- Protect and enhance green spaces, especially Westbridge Park, Nicholls' Lane Field, Tilling Drive Green Space, areas by the canal and river; designate areas of Local Green Space.
- Improve road safety and connectivity for pedestrians and cyclists, introduce traffic calming measures, (e.g. junction at Old Road and Newcastle Road, A51 bypass; Lichfield Road; across one-way system; to canal and Westbridge;) encourage more sustainable modes of transport, cycle ways and footpaths; improve connectivity with green spaces; improve links between town and Walton; better pedestrian links to business park.
- Improve facilities for teenagers, including scout huts, adventure playground, cinema, 10 pin bowling, football, bike and a skate park, youth club.

Stone has many positive features that make it an attractive place in which to live. Local people generally have a high regard for Stone and appreciate its many assets: most notably the green open spaces in and around the town; its shopping and other facilities; the ambience of Stone as a historic market town; its thriving community spirit, and the wide range of leisure and recreational activities available to residents. Stone has good transport links to nearby towns and cities, local job opportunities, good schools, and access to the canal and river meadows, which are close to the heart of the town.

These assets have resulted in Stone being a desirable place in which to live. Therefore as the second largest settlement in Stafford Borough, it has become a focus for new housing development and, to a lesser extent, employment development. In recent years, the town has seen significant housing growth, which is set to continue in the site allocations made by the latest Stafford Borough Local Plan. During the Stage 1 consultation, a number of local people expressed a desire to limit housing growth in Stone, because of the adverse impact this would further have on local infrastructure and local green space. A number of people emphasised the importance of protecting and enhancing existing areas of open green space, which are important to the local community.

Forming part of the evidence base a Green Space Audit was undertaken. This identified over 50 sites of Local Green Space applying the NPPF criteria. These sites were then checked against criteria that may remove them from possible designation, such as subject to a planning permission. These were then formally consulted on with a community event in the town, consulting local sports groups and organisations, residents groups and the sports and leisure team at Stafford Borough Council asking for positive and negative comments about the sites identified in the Green Space Audit. Following this process and consideration of the comments collected, the final number of 53 sites were identified as those to be included in the Neighbourhood Plan as Local Green Space designations. Local Green Space Consultation was delivered in November 2016 and October 2017. Following the release of the updated NPPF in July 2018 all of the designated Local Green Spaces have been tested against paragraph 100 to ensure they are compliant with the revised criteria.

The Plan for Stafford Borough Part 1 defines Green Infrastructure as 'A network of multi-functional green space, urban and rural, which is capable of delivering a wide range of environmental and quality of life benefits to local communities.' It goes on to state that Neighbourhood Plans provide "opportunity for local communities to identify Local Green Space to be specifically designated."

Furthermore strategic policy C7 Open Space, Sport and Recreation reinforces the importance, need and provision of a variety of open spaces and associated uses or facilities.

The Local Green Spaces identified in the Neighbourhood Plan contribute to the network with the Green Infrastructure Strategy for Stafford Borough: Strategic Plan (November 2009) identified a number of key objectives, as detailed in Policy N2 and N4 of the adopted Plan for Stafford Borough that are applicable to Local Green Spaces:

Networks of open spaces, natural corridors, access routes and watercourses will be enhanced and created to:

- protect the setting of landscape, heritage and natural (biodiversity and geodiversity) assets
- reverse habitat fragmentation, which could include planting of trees and hedgerows, meadow wildflower enhancement, pond and wetland creation.
- provide recreational opportunities for new and existing communities
- provide planned and designed open breaks between neighbouring residential areas and business developments.

Local landscape and heritage features should:

- be retained as focal points for new neighbourhoods,
- have their historic nature protected
- act as attractive green and open spaces where communities can come together.

To alleviate the effects of climate change:

- measures such as Sustainable Drainage Systems and street trees must be included in new developments and should be 'retro-fitted' into existing developments
- green spaces will provide a flood storage/management function (where appropriate).

The Local Green Spaces designated collectively provide a variety of social, economic and environmental benefits, contributing to the sustainable development of Stone, offering a range of spaces that promote well-being and community facilities within the area. The designations have been made in accordance with the NPPF criteria contained within paragraph 77 and complement other designations within the area. Furthermore, following the release of the NPPF in July 2018 all of the proposed Local Green Spaces have been tested against paragraph 100 to ensure they are compliant with the revised criteria.

This Neighbourhood Plan designates 53 Local Green Spaces, which are listed in Appendix E and F

# Vision and Aims:

## VISION FOR STONE:

In 2031, Stone will be notable as a thriving market town alongside the river and canal, with an attractive and accessible historic centre, a high quality network of green space, a wide range of leisure and recreational activities, a successful tourism sector, high quality local services and a diversity of local employment opportunities.

SA1: Improve the economic viability of the High Street and the town centre by encouraging and incentivising new businesses, enabling local businesses to thrive and providing a diverse range of shopping and other services.

SA2: Preserve and enhance the special character of the town, including the heritage assets of Stone by supporting initiatives to repair, refurbish and re-use historic buildings and to improve the quality of the environment.

SA3: Identify and designate important areas of local green space and develop a green infrastructure strategy to protect and improve those areas.

SA4: Support initiatives for the review of the town's transport and traffic needs, and support relevant actions to address those needs.

SA5: Improve pedestrian and cycle links and accessibility within Stone and to surrounding destinations, particularly the canal and river meadows.

SA6: Protect and improve leisure, cultural and sports facilities and improve community access to those facilities.

SA7: Support initiatives for the enhancement of essential local community facilities, including medical and educational facilities as appropriate, ensuring that they are sustainable and fit for purpose

SA8: Ensure that new developments in Stone preserve and enhance the town's historic character and improve the quality of the natural and built environment.

SA9: Ensure that new housing caters for a growing and ageing population, whilst addressing local housing needs.

**PAST**

**FUTURE**

**PRESENT**

# Land Use Policies:

## Growth Strategy:

The Growth Strategy for Stone has three key elements:

1. Housing growth to cater for a growing and ageing population, whilst addressing local housing needs;
2. Reinforcing Stone Town Centre's role as a place to visit, shop, and access high quality local services; and
3. Deliver new high quality green infrastructure, and preserve and enhance key local community and environmental assets.

The Growth Strategy will be delivered through:

- Strategic housing site allocation identified through the Plan for Stafford Borough Part 1, together with the Stone Settlement Boundary through Part 2 to enable infill opportunities within the urban envelope;
- A series of enabling policies; and
- The development of a Neighbourhood Development Order for Stone Town Centre.

## Housing:

The Plan for Stafford Borough Part 1 2011-2031 adopted June 2014 states that, within the settlement boundaries, there would be a presumption in favour of supporting housing and employment development, subject to any other relevant planning considerations. It also goes on to state that it is intended that development allocations for specific sites will be identified through the Settlement Boundaries through the Neighbourhood Planning Process. The purpose of the housing policies is to ensure that local housing needs are addressed through Policy Stone 1 – Stone Town, and Policy Stone 2 – West and South of Stone, of the adopted Plan, and that high standards of design and sustainability are secured.

A number of sites for new housing have been identified through the Plan for Stafford Borough Part 1 2011-2031 process. The "distribution proposed in Spatial Principle SP4 reflects the consideration of alternative development strategies through the successive consultation stages of preparing the current Plan, and taking account of the Sustainability Appraisal process. As a result new development focused on the County Town of Stafford, the market town of Stone and a number of principal settlements has been identified as the most sustainable choice for distributing new development."

The Plan for Stafford Borough Part 1 sets out that Stone Town has a total requirement of 1,000 new homes over the plan period. Completions since the start of the plan are 279 and

Identified policy areas are as follows:

1. Housing: to ensure that identified local housing needs are addressed, and that new homes are delivered to high standards of design and sustainability;
2. Business and Employment: to enable economic diversification, and reinforce the role of Stone Town Centre; and
3. Community Facilities: to ensure that growth in Stone is supported by high quality facilities and environmental assets.

commitments up to 31/03/2016 were 859. As at 31 March 2017, completions since the start of the Plan period in 2011 are 387 and current commitments are 748 new homes. This gives a position at March 2017 of 1,135 new homes which is an additional 13.5% provision above the original number allocated.

The allocation of new homes has been met in part through strategic site allocations and planning approvals. The Strategic Housing Land Availability Assessment 2016 (SHLAA) states "the majority of the housing need will be met through the 4 SDL's." Stone includes one of the 4 Strategic Development Locations SDL's identified in the plan for the Stafford Borough. The Stone SDL seeks to deliver key infrastructure requirements to enable the sustainable growth of the area. A recent outline planning application for the SDL reference 13/19002/OUT for Walton Hill Residential Development, West Of Longhope Drive, Stone granted planning permission for 500 new homes in February 2015. These are taken into account within the current figures mentioned previously.

The Plan for Stafford Borough Part 1 identifies that in terms of "housing type, Stone and environs has a significant oversupply of detached properties to the detriment of mid sized units such as semi-detached properties and terraced housing. There is also a pressing need for more affordable housing to meet current and future demand."

These policies seek to meet the following aims of the Neighbourhood Plan:

**SA2:** Preserve and enhance the special historic character and heritage assets of Stone by supporting initiatives to repair, refurbish and re-use historic buildings and to improve the quality of the environment.

**SA4:** Support initiatives for the review of the town's transport and traffic needs, and support relevant actions to address those needs.

**SA5:** Improve pedestrian and cycle links and accessibility within Stone and to surrounding destinations, particularly the canal and river meadows.

**SA9:** Ensure that new housing caters for a growing and ageing population, whilst addressing local housing needs.

### Rationale and Evidence:

To address identified local housing needs, and provide a balanced mix of new homes, in a planned, well-designed and sustainable manner, as outlined by strategic policies within the adopted Plan for Stafford Borough, and supporting evidence such as the 'Stone Rural Hub Town Profile'. The Local Plan (Plan for Stafford Borough), identifies in the development strategy for Stone Policy Stone 1; "provides 1,000 new homes over the plan period, including a higher proportion of smaller dwellings (semi-detached and terraced) and affordable homes."

Paragraph 84 in the Plan for Stafford Borough states that: "In terms of housing type, Stone and its environs has a significant oversupply of detached properties to the detriment of mid sized units such as semi-detached properties and terraced housing. There is also a pressing need for more affordable housing to meet current and future demand. The tenure is similar to Stafford Town with the majority being owner occupiers. Analysis of the population information for Stone shows that the over 65 year olds will increasingly be a significant group. However, an element of family housing will still be required to provide for local needs. Increasing and enhancing the provision of educational, health and community facilities will support increased housing growth including for the elderly population."

Good design is indivisible from good planning and achieving sustainable development. The National Planning Policy Framework recognises that well-designed buildings and places improve the quality of people's lives and that it is a core planning principle to achieve good design.

### Rationale and Evidence:

Good design will ensure that proposed developments are sustainable. The National Planning Policy Framework (NPPF) recognises that well-designed buildings and places improve the quality of people's lives and that it is a core planning principle to achieve good design. This includes considerations such as pedestrian convenience and safety, movement, natural surveillance, quality of the public realm, townscape character and consideration of the natural environment and wildlife.

## Policy H1: Housing Tenures and Types

In terms of meeting housing need development proposals must include:

- Affordable housing, including homes for social rent, affordable rent, shared ownership, and starter homes; and
- Housing for the older population such as supported housing, and downsizing and rightsizing opportunities.

Neighbourhood plans should develop robust and comprehensive policies that set out the quality of development that will be expected for the area. Such policies should be based on stated objectives for the future of the area and an understanding and evaluation of its defining characteristics, for example there is an extensive network of Public Rights of Way in the neighbourhood area and these would need to be considered by developers.

As the historic Market Town of Stone, has a Conservation Area and many Listed Buildings and Heritage Assets, it is also necessary to consider local character. The Design policy will enhance the character and appearance of the area of Stone and the Conservation Area, and will support the aims of strategic policies within the Local Plan – for example Policy Stone 1 and Policy Stone 2 – and responds to the findings of the Historic Environment Character Assessment, Stone Environs, July 2009 by Staffordshire County Council.

Furthermore this policy augments policy N1 and N2 in the PfSB Part 1, responding to other design characteristics and issues that the neighbourhood plan seeks to address.

As previously discussed in the Character Areas section, five Character Areas were identified as having a distinct character. Within two of these Character Areas, Special Character Areas have been identified, namely Special Character Area North and Special Character Area South which are predominately residential comprising of properties set within large gardens. Through the community engagement, the issue of development of infill housing within garden plots was identified. The Neighbourhood Plan undertook further community engagement with residents of these two areas, proposing a policy to safeguard the gardens from development of additional residential units within them, which would change and harm the special character.

On balance, reviewing the responses, the material considerations meant that Special Character Area North was proposed as a policy area and Special Character Area South, whilst still being recognised as an important area, was not included in the policy. Further details of the special character of Stone and detail about the Special Character Area North can be found in the previous section of the plan.

## Policy H2: Housing Design

### Policy H2: Housing Design

New development in Stone must deliver high quality design. In order to achieve this, new development must accord with the following:

- By providing active frontages to streets and spaces to provide positive townscape and natural surveillance)
- To ensure new development is designed for the specific site in question, combining the design of buildings, streets and spaces to create a distinctive sense of place;
- Respect and enhance local topography, landscape and water features, trees and plants, wildlife habitats, existing buildings, site orientation and microclimate;
- Provide buildings, landscaping and planting that create attractive streets and spaces;
- Take advantage and respect views into and out of sites in order to make the development easy to access and navigate through;
- Provide streets that encourage low vehicle speeds and contribute to an attractive public realm;
- Ensure each development includes a proportion of on plot car parking and ensure that other does not dominate the streets;
- Will incorporate charging points for electrical cars.
- By avoiding or placing rear gardens next to road frontages;
- Provide convenient, secure covered well-screened storage for bicycles and motor vehicles;
- Be of an appropriate scale and massing in relation to the wider town context;
- Include high quality and recycled materials which complement those used in the surrounding area; and
- Not create unnecessary light pollution by having bright, permanently lit areas at night.

Innovative design solutions will be welcomed especially where they incorporate high level environmental performance. Development of infill housing within large existing plots ('garden grabbing') will be resisted where such plots have been identified as playing an important role in the character of a particular area (e.g. within the identified Special Character Area). This area is identified in: Appendix B Plan of Character Area North.

The Design and Access Statement accompanying relevant planning applications must explain how the proposed development addresses the above policy.

# Business and Employment:

It is recognised that Stone is located between two major economic centres: the Potteries conurbation, and the County Town of Stafford. However, Stone is home to a diverse business base, and Stone Town Centre will continue to play a vital role in driving the local economy. Business and employment policies are concerned with responding to changes in work patterns, and reinforcing the role of Stone Town Centre.

These policies seek to meet the following aims of the Neighbourhood Plan:

**SA1:** Improve the economic viability of the High Street and the town centre by encouraging and incentivising new businesses, enabling local businesses to thrive and providing a diverse range of shopping and other services.

**SA8:** Ensure that new developments in Stone preserve and enhance the town's historic character and improve the quality of the natural and built environment.

## Rationale and Evidence:

To encourage sustainable patterns of development, and support economic diversification in order to reduce the high levels of commuting identified in the 'Stone Rural Hub Town Profile', and Local Plan evidence base.

The Neighbourhood Plan policy seeks to build upon the Plan for Stafford Borough Policy E1, which also encourages home working. Point 1 of the policy states: "i. Supporting opportunities for home-office working in appropriate locations where this does not have any adverse impacts on the surrounding area and residential amenity."

The Neighbourhood Plan encourages a greater range of uses providing these are not at the detriment of neighbour amenity.

## Policy BE1: Small Home Based Business

Small-scale employment-related uses will be supported, providing there is no significant adverse impact on residential amenity. This includes:

- Proposals for the conversion or extension of existing residential properties or the development of new buildings within a residential plot for commercial uses to provide opportunities for new start-up businesses.
- The expansion and diversification of existing businesses where it can be demonstrated that proposals are compatible with residential uses, will not impact adversely on residential amenity, and do not contribute to an over-intensification of business uses within established residential areas.

New housing will be encouraged to include opportunities for home working and opportunities to cater for home based business, where it can be demonstrated that the principles set out in Policy H2 will not be compromised.

## Rationale and Evidence:

To ensure the continued vitality and viability of the town centre as a key location for economic growth, a place to visit, and a place to access a range of local services, in accordance with Policy Stone 1 – Stone Town of the Local Plan, and the 'Stone Rural Hub Town Profile'.

The Local Plan (Plan for Stafford Borough) identifies in Spatial Principle SP3 that by "encouraging the development and expansion of the town centre to provide a vibrant place where people can meet, shop, eat and spend leisure time in a safe and pleasant environment" this would enhance the sustainable

viability of the town. As a result of the evidence gathered through community consultation it was identified that specific uses and sites should be promoted through policies in the Neighbourhood Development Plan to enable a sustainable, thriving market town.

Furthermore, the sustainability of Stone's Town Centre and future development of sites within and in close proximity to the town centre should be considered in accordance with paragraphs 86-88 of the National Planning Policy Framework (NPPF), July 2018, which deals with the sequential test and paragraph 89 of the NPPF which addresses the impact assessment.

## Policy BE2: Stone Town Centre and Local Retailing

New development within the town centre must maintain or enhance its vitality and viability. This includes retail uses and other uses suitable to the town centre, including food and drink and cultural, leisure and community facilities.

Proposals for residential use will be considered for approval for upper floors, but not at ground floor level within retail frontages on High Street.

All ground uses must retain a shop frontage to the High Street.

# Community Facilities:

Whilst Stone is catering for growth, it is also important that this is supported by the delivery of, or enabling access to a range of high quality community facilities and open spaces. Policies to support community facilities focus on:

- Local play, sports and recreational facilities;
- Green infrastructure and environmental assets; and
- Community facilities.

These policies seek to meet the following aims of the Neighbourhood Plan:

SA3: Identify and designate important areas of local green space and develop a green infrastructure strategy to protect and improve those areas.

SA6: Protect and improve leisure, cultural and sports facilities and improve community access to those facilities.

SA7: Support initiatives for the enhancement of essential local community facilities, including medical and educational facilities as appropriate, ensuring that they are sustainable and fit for purpose.

SA8: Ensure that new developments in Stone preserve and enhance the town's historic character and improve the quality of the natural and built environment.

## Rationale and Evidence:

To ensure that local people have access to a range of high quality sports and recreational facilities, that development proposals provide appropriate provision and support towards new facilities, and enhancements, in accordance with strategic policies within the Local Plan (e.g. Policy 1 - Stone Town, and Policy 2 - West and South of Stone.) Policy C7 of the PfSB Part 1 also sets out greenspace requirements and more formal sports facilities. These are further justified in Appendix G of the Plan for Stafford Borough.

To ensure that the provision of space and play facilities is proportionate to the scale of development the Fields in Trust Guidance has been considered, providing clarity on the scale needed in relation to the number of dwellings. The Fields in Trust Guidance sets out the following methodology, which has been used to support this policy;

- 5-10 dwellings: Local Area for Play;
- 10-200 dwellings: Local Area for Play and a Locally Equipped Area for Play;
- 201-500 dwellings: Local Area for Play, a Locally Equipped Area for Play, a contribution to a Neighbourhood Equipped Area for Play, and a Multi-Use Games Area; and
- 501+ dwellings: Local Area for Play, a Locally Equipped Area for Play, a Neighbourhood Equipped Area for Play, and a Multi-Use Games Area.

## Policy CAF1: Local Play, Sports and Recreational Facilities

New residential development of over 10 units must be supported through either direct provision or contributions towards play, sports and recreational facilities.

To avoid fragmented provision, where facilities are being provided directly, they must be in accordance with a wider masterplan for play, sports and recreational facilities and this must be submitted with any planning application. Such facilities must be provided within the neighbourhood area.

### Rationale and Evidence:

To ensure that local people have access to a range of high quality open spaces and environmental assets, and that development proposals provide appropriate provision and support towards delivering or enabling access to such assets.

Paragraph 70 of the National Planning Policy Framework states that “to deliver the social, recreational and cultural facilities and services the community needs, planning policies and decisions should:

- Plan positively for the provision and use of shared space, community facilities (such as local shops, meeting places, sports venues, cultural buildings, public houses, places of worship, and public conveniences) and other local services to enhance the sustainability of communities and residential environments;
- Guard against the unnecessary loss of valued facilities and services, particularly where this would reduce the community’s ability to meet its day-to-day needs;
- Ensure that established shops, facilities and services are able to develop and modernise in a way that is sustainable, and retained for the benefit of the community; and

- Ensure an integrated approach to considering the location of housing, economic uses and community facilities and services.

Where a proposal involves a recognised Asset of Community Value as determined by the provisions of the Localism Act 2011, this recognition should be a material consideration in the determination of any planning application related to it.

In the Local Plan, (Plan for Stafford Borough), strategic policy C7 Open Space, Sport and Recreation, seeks to ensure that there is a presumption against the loss of any community facility where the need is proven and that “new development that generates a local need provides commensurate level and quality of facilities.”

## Policy CAF2: Green Infrastructure

Development proposals must preserve or enhance Stone’s green spaces and environmental assets, including trees and hedgerows.

Where appropriate, Section 106 or CIL contributions may be used to improve access to green spaces and infrastructure, to enable development.

## Rationale and Evidence:

This policy aims to improve and enhance important views, vistas and spaces across Stone, in accordance with the 'Historic Environment Character Assessment, Stone Environs, July 2009 by Staffordshire County Council'. The adopted Local Plan identifies in the spatial vision for Stone that by 2031 the town will have "conserved and enhanced the local character of the town and its canal side vistas."

The PfSB Part 1, Policy N9 Historic Environment clearly identifies the significance of the character and setting of heritage assets. The policy ensures that any development proposal that would affect the significance of a heritage should take into account a number of factors, including significant views and vistas.

Through the community engagement and during a 'Town Tour' event in March 2016, key views and vistas were identified and marked on the plan accompanying this policy. It was acknowledged that the setting, views and appearance of the historic market town were an important factor to the tourism economy of the area and these should be safeguarded and enhanced. These key views are described in more detail in the Gateway and Views section previously in the plan.

### Policy CAF3: Protected Views and Vistas

New development must preserve or enhance significant local views within the built and natural environment of Stone, as shown on Map at Appendix H. These are:

- Along the River Trent corridor and flood plain;
- From Stafford Road towards the town centre;
- From Westbridge Park to The Moorings and tower of the Church of St Michael's;
- From Longton Road towards various historic buildings, including the Church of St John;
- From Lichfield Road towards the town centre;
- The Station Approach vista;
- Views and vistas along the Trent and Mersey Canal corridor; and
- Views into the urban area from the A34. The Design and Access Statement that supports planning applications for developments that may affect these views and vistas must demonstrate how the proposal would enhance them.

## Rationale and Evidence:

This policy aims to provide, improve, and enhance the Local Green Spaces enabling small-scale development that complement the use of facilities and ensures that any new development does not compromise the open quality of the space. This policy aims to ensure that new development takes account of Local Green Spaces.

The Local Green Spaces identified in the Neighbourhood Plan demonstrate their value to Stone and the wider community. These have been designated through the Neighbourhood Plan with a total of over 50 sites identified.

The Plan for Stafford Borough Part 1 identifies key local plan objectives for Stone, one of these is to deliver "New open space sport and recreational facilities including indoor and outdoor provision to meet the needs of the community." The Local Green Spaces allocated by this plan must remain as such.

### Policy CAF4: Local Green Space

The Local Green Spaces must not be developed. Development will only be allowed in exceptional circumstances, small-scale development may be allowed where it does not compromise the open quality of the space and enhances its community value.

# Non-Planning Matters

This section does not form part of the statutory Neighbourhood Development Plan and is therefore not subject to independent examination and referendum. It includes proposed actions that fall outside of the scope of planning policy:

## Neighbourhood Development Order (NDO) for Stone Town Centre:

A Neighbourhood Development Order for Stone Town Centre would:

- Reinforce Stone Town Centre's role as a place to visit, shop, and access high quality local services. Consequently it is proposed to develop a Neighbourhood Development Order.
- The purpose of the Order will be to underpin the principles within Neighbourhood Plan Policies, particularly Policy BE2.

## What is a Neighbourhood Development Order?

A Neighbourhood Development Order can grant planning permission for specific types of development in a specific neighbourhood area. A Neighbourhood Development Order can therefore:

- Apply to a specific site, sites, or wider geographical area;
- Grant planning permission for a certain type or types of development; and
- Grant planning permission outright or subject to conditions.
- A Neighbourhood Development Order can be used to permit:
- Building operations (e.g. structural alterations, construction, demolition or other works carried out by a builder);

- Material changes of use of land and buildings; and
- Engineering operations.
- Super Fast Broad Band: Stone Town Council strongly encourage all developers to contact service providers at the earliest opportunity to ensure delivery and improvements to the infrastructure to secure super-fast broadband into homes and businesses.

This Neighbourhood Development Plan has been prepared with special thanks to the Stone Neighbourhood Plan Steering Group  
Jill Hood; Andy Osgathorpe, Barbara Rochelle; Cathy Collier; Gary Barr; Geoff Collier; Grahame Neagus; Ian Fordham; Jane Bonser; Jill Piggott; Jim Davies; Mark Green; Mike Williamson; Rob Kenney; Tom Jackson.

# Appendix D - Community Facilities

The Policy Context During the preparation and consultation of the Local Green Spaces.

National Planning Policy Framework 2012

The NPPF provides the following information on Local Green Space designations:

76. Local communities through local and neighbourhood plans should be able to identify for special protection green areas of particular importance to them. By designating land as Local Green Space local communities will be able to rule out new development other than in very special circumstances. Identifying land as Local Green Space should therefore be consistent with the local planning of sustainable development and complement investment in sufficient homes, jobs and other essential services. Local Green Spaces should only be designated when a plan is prepared or reviewed, and be capable of enduring beyond the end of the plan period.
77. The Local Green Space designation will not be appropriate for most green areas or open space.  
The designation should only be used:
  - 1) where the green space is in reasonably close proximity to the community it serves;
  - 2) where the green area is demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquillity or richness of its wildlife; and
  - 3) where the green area concerned is local in character and is not an extensive tract of land.
78. Local policy for managing development within a Local Green Space should be consistent with policy for Green Belts.

Additional guidance is provided in the National Planning Practice Guidance (NPPG):

NPPG paragraph 19 states that land does not have to be in public ownership to be designated Local Green Space. Furthermore, NPPG paragraph 17 evidences that land does not require to be accessible by the general public to be designated Local Green Space.

For clarity, the definition of tranquillity has been taken from the Oxford English Dictionary, where it is listed as meaning 'calm, serene, unruffled, not agitated'. Tranquillity does not necessarily imply an absence of noise.

Comments have been shaped resulting from the Government's emphasis on well-being in their Sporting Futures Strategy, (Dec 2015), and Sir Professor John Lawton's Making Space for Nature Review, (Sept. 2010). The Fields in Trust benchmark guidelines, Beyond the Six Acre Standard, (Oct 2015), have been used to assist in the descriptions of spaces and defining their roles in meeting open space needs within the local community.

National Planning Policy Framework, July 2018

Following the release of the NPPF in July 2018 all of the Local Green Spaces designated in this neighbourhood plan have been tested against paragraph 100 to ensure they are compliant with the revised criteria. Paragraph 100 states:

"The Local Green Space designation should only be used where the green space is:

- a) in reasonably close proximity to the community it serves;
- b) demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquility or richness of its wildlife; and
- c) local in character and is not an extensive tract of land."

In relation to Community Facilities the National Planning Policy Framework, (paragraph 70), also states:

'To deliver the social, recreational and cultural facilities and services the community needs, planning policies and decisions should:

- 1) plan positively for the provision and use of shared space, community facilities (such as local shops, meeting places, sports venues, cultural buildings, public houses and places of worship) and other local services to enhance the sustainability of communities and residential environments;
- 2) guard against the unnecessary loss of valued facilities and services, particularly where this would reduce the community's ability to meet its day-to-day needs;
- 3) ensure that established shops, facilities and services are able to develop and modernise in a way that is sustainable, and retained for the benefit of the community; and
- 4) ensure an integrated approach to considering the location of housing, economic uses and community facilities and services.'

This document has sought to identify those green spaces and community facilities in Stone which it is believed should be offered protected status. Visits were made to each site to document evidence and the above relevant criteria for designation has been applied to support designation. In total 53 spaces were designated Local Green Spaces and 35 local facilities were designated Community Facilities.

# Appendix E - Local Green Space Designations

## Introduction to Appendix

In March 2012, the Government made it possible for green spaces with a special community importance to qualify for a new protection status. This status is known as 'Local Green Space'. The Local Green Space status has been made possible through the introduction of the Localism Act and Natural Environment White Paper (2011) which influenced the policies in the National Planning Policy Framework (NPPF) introduced in March 2012.

# Appendix F - Plan of Local Green Space Designations

<b>Protected Reference</b>		LGS 01	
<b>Name</b>		Bushberry	
<b>Location</b>	<b>Post Code</b>	ST15 0HP	
	<b>OS Grid Ref</b>	SJ 897 329	
<b>Type of protection</b>		Local Green Space	
<b>NPPF Para 77 Criteria</b>			<p><b>Site Description:</b></p> <p>Bushberry is a small area of amenity greenspace containing four trees, which provides a pleasant entry into Common Lane and the high-density housing area of Walton. Historical OS maps dated 1887 identify it as a remnant of what would have been open fields up to Walton Heath, and it is to this that the community attributes value. Adjacent is Bank Side, a roadside verge and whilst not part of the designation, it is tree lined amenity greenspace, a continuation of Bushberry. Together they provide a corridor for wildlife and a pleasurable space for residents to walk along. It typifies the spacious feel of the gateway approaches into Stone, and is widely valued by the community.</p>
<ul style="list-style-type: none"> <li>Not with an extant planning permission within which the Local Green Space could not be accommodated</li> <li>Not allocated for development in the relevant Neighbourhood Plan/Local Plan.</li> <li>Additionally, the site meets the following criteria. It holds local significance because of its: beauty and historical significance.</li> </ul> <p>Other reasons: it provides a part of a buffer zone to a busy road and whilst separated from the roadside verge of Bankside by Common Lane, together they provide a sense of open space, contributing to the well-being of local residents</p>			

<b>Protected Reference</b>		LGS 02	<p><b>Site Description:</b></p>  <p>This is a Local Equipped Area for Play and Amenity Greenspace, enclosed within a gated and hedged area in the centre of the residential development. It contains swings and a small slide for young children along with supervisory seating.</p>  
<b>Name</b>		Caudon Way

<b>Type of protection</b>		Local Green Space
<b>NPPF Para 77 Criteria</b>		
<ul style="list-style-type: none"> <li>• Not with an extant planning permission within which the Local Green Space could not be accommodated</li> <li>• Not allocated for development in the relevant Neighbourhood Plan/Local Plan.</li> <li>• Additionally, the site meets the following criteria. It holds particular local significance because of its: beauty, tranquillity, historical significance, recreational value and wildlife. Other reasons: the meadow is regularly used by locals and visitors and it forms part of a wildlife corridor along the Trent floodplain linking all three Local Nature Reserves.</li> </ul>		

**Site Description:**

It is a Local Nature Reserve within the Green Infrastructure along the Trent floodplain and is a natural and semi-natural greenspace situated in the river/canal corridor between the River Trent, the Trent and Mersey Canal and the Scotch Brook. The Town Council owns and manages the reserve. In recent years this area has been greatly improved with the addition of a disabled friendly access bridge, new footpaths including a small circular walk, a small amphitheatre and two wetland scrapes heavily planted with indigenous wild flowers. It is managed as a hay meadow and being close to the heart of Stone it is a well-known and well-used site. It offers beautiful scenery tranquillity and engenders a sense of well-being amongst locals and visitors.

<b>Protected Reference</b>		LGS 16	<b>Site Description:</b>  It is an Amenity greenspace containing a stream which encompasses land along the whole length of one side of the small housing development on Jordan Way extending up to the railway line. On the side adjacent to Pingle Lane it also includes a row of mature trees. Pingle Lane itself is an unmade track and public footpath to Stone Park Farm. This area is highly valued by the local community providing both an informal play area for children and an area for exercising dogs. It also serves as an important corridor for people and wildlife and due to the amount of tree cover is alive with birdsong.

It holds local significance because of its beauty, tranquillity, recreational value, historical significance and wildlife. Other reason: the land lies within the MVCA designated in 1979.</li> </ul>		
		  <p><b>Site Description:</b> This approx. 2 ha of natural and semi-natural greenspace is part of the lower section of the Moddershall Valley Conservation Area (MVCA). The location is adjacent to veteran woodlands (Radford Woods), the historic Mill Race and the Scotch Brook, where in this section the river is probably one of the finest examples of natural unmodified river remaining in the county; (source Staffs Ecological Record Sept 02). The Mill, (Grade II listed), is the birth place of baker Richard 'Stoney' Smith, the founder of Hovis. The area is also adjacent to one of the recently restored flint mills in the valley. The area also enjoys historic vistas of Stone from Coppice Rd. As well as it being part of a natural corridor for wildlife it also offers recreational space for local children which is notably limited in the area. It is considered an area of natural beauty as well as evidencing an important part of Stone's industrial heritage.</p>

<b>Type of protection</b>	Local Green Space	

**NPPF Para 77 Criteria**

- Not with an extant planning permission within which the Local Green Space could not be accommodated.
- Not allocated for development in the relevant Neighbourhood Plan/Local Plan.
- Additionally, the site meets the following criteria. It holds particular local significance because of its beauty, recreational value, tranquillity and wildlife.

Other reasons: Part of the space is a wildflower site for Stone in Bloom. As a whole the area acts as a buffer zone between the industrial estate, the housing development and the main A34. It also enhances the main northern gateway approach to the town.

**Site Description:**

This area of about 1 ha encompasses 5 distinct and different sized parcels of landscaped amenity greenspace, planted with trees and shrubs which are bisected by the feeder road from the A34 to the Whitebridge housing development and industrial estate. These parcels of land also back onto the canal and incorporate land to the east of Millennium Way.

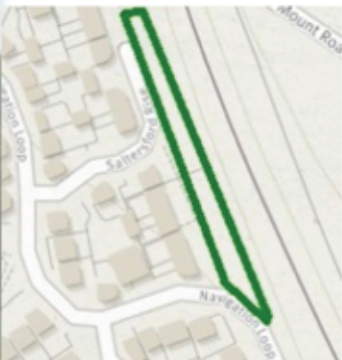

Together they constitute a significant piece of open space for informal recreational use by the community, as well as providing a habitat for wildlife, a paved link to walks by the canal and the countryside beyond, and enhancement of the entrance to the large Whitebridge housing development. All these factors help promote a sense of well-being for the local community in the area. The section

immediately next to the A34, which is planted with wild flowers, also creates a sense of space which is replicated, in the main, on other gateway approaches into Stone and is seen as an important feature to the town.

<b>Protected Reference</b>		LGS 22	<b>Site Description:</b> Set in an acre of land, this local equipped area for play and amenity greenspace offers the local community a place to enjoy leisure activities. Importantly it provides a link between the west and east sides of the loop road that circumnavigates the development.

It holds particular local significance because of its recreational value and wildlife.</li> </ul> <p>Other reason: the space provides a wildlife corridor between the residential amenity and railway.</p>			
		 	

Note LGS 24 has been removed

<b>Protected Reference</b>		LGS 25	<b>Site Description:</b> It is a Natural and Semi-Natural Greenspace identified for its beauty and dramatic scenery. It is situated on the valley side and falls within the Moddershall Valley Conservation Area. It has a public footpath, (Stone Town 13), which crosses the field south west to north east that is used daily, and particularly so by dog walkers, who may let their animals off the lead because there has been no grazing stock for many years. Other well-worn paths cross and circumnavigate the field. It is also used for other forms of informal recreation, such as picnicking and sledging both in recent times and historically. The site abuts woodland which is both an SBI for flora, and a Local Wildlife Site. It is part of the green corridor formed by the valley that extends outwards from the town to the Green Belt in the north and east. It is very highly valued by the local community who enjoy its beauty, tranquillity, historical significance, recreational value and wildlife.

<p>Other reason: the space engenders a sense of well-being to those who use it and it acts as a buffer zone to the LNR containing rare Black Poplar trees.</p>		

**Site Description:**

This small amenity greenspace is accessed via a path between two properties on Redwood Drive. It backs onto woodland which forms part of the Southern Meadow Local Nature Reserve, (LNR) contained within the Trent floodplain (GI), which adds to the sense of being connected to nature.

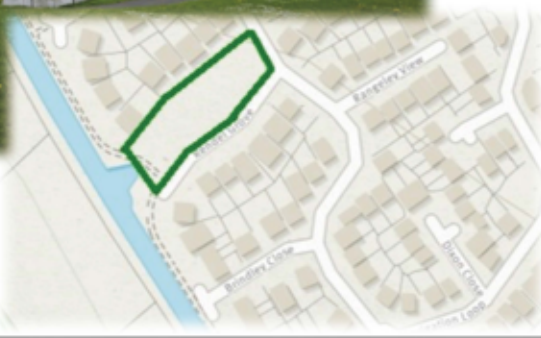

It also contains an access point to Southern Meadow.

Although spatially not far from the Lindens, the two areas are not joined together. This area is large enough to allow ball games, and is used by the local community for various activities, such as dog walking and picnicking

<b>Protected Reference</b>		LGS 32	<b>Site Description:</b>  These two conjoined areas of green space are the remains of what is left of the grounds of a house called the Cedars evidenced on the 1887 OS 6" map. The area has a footpath passing through it from a pelican crossing off the A34 to the housing estates that constitutes Cherryfields to the south and the Valley Road area to the north and east. There is a small plantation which contains amongst other trees, veteran cedar trees after which the property was probably named. Similarly, there are purposefully placed copper beech trees potentially of a similar age. The greenspace that specifically borders the A34 has a tilled area used by "Stone in Bloom" for the annual planting of wild flowers, creating an expanse of colour in the summer.

<b>Type of protection</b>		Local Green Space	
<b>NPPF Para 77 Criteria</b>			<b>Site Description:</b> This is a semi-natural amenity greenspace situated in an established and densely populated housing development. It has an entrance marked by four mature trees. Two parallel pathways, located either side of a wrought iron fence which delineates the canal side, offer access to the area. It is popular one mile circular route with walkers, dog owners, anglers and joggers who can enjoy being close to nature
<ul style="list-style-type: none"> <li>• Not with an extant planning permission within which the Local Green Space could not be accommodated.</li> <li>• Not allocated for development in the relevant Neighbourhood Plan/Local Plan.</li> <li>• Additionally, the site meets the following criteria. It holds particular local significance because of its beauty, tranquillity, recreational value and wildlife. Other reason: the space engenders a sense of well-being amongst those in the local community who use it. Also acts as a wildlife corridor and buffer zone.</li> </ul>			
			
			

<b>Protected Reference</b>			<b>Site Description:</b> LGS 44 predominately lies outside the NP area. As such, the part that remains within the NP area on its current and own merits would not warrant a LGS designation. However, it is acknowledged it forms part of a wider space that maybe designated by Stafford Borough Council.	
<b>Name</b>		Walton Heath		
<b>Location</b>	<b>Post Code</b>	ST15 0XR		
	<b>OS Grid Ref</b>	SJ 893 324		
<b>Type of protection</b>		None		
<b>NPPF Para 77 Criteria</b>			This is a large tranquil area of Protected Space and Amenity greenspace of about 3 ha in size situated at the end of Common Lane. It is referred to as 'the common', albeit it does not hold true common status. It is an area popular with dog owners, walkers and children. The 1st Stone Scout troop uses the common and has a hut at the top of Common Lane. A football pitch is also provided, although it can suffer from waterlogging due to the soil composition of the heath. As time progresses, Stone's residential development will expand in this direction. Currently Stafford Borough Council's SDL Stone West is adjacent to this area across the Eccleshall Road. It will therefore become even more important to secure the status of this space.	
<ul style="list-style-type: none"> <li>• Not with an extant planning permission within which the Local Green Space could not be accommodated.</li> </ul>				
<ul style="list-style-type: none"> <li>• Not allocated for development in the relevant Neighbourhood Plan/Local Plan.</li> </ul>				
<ul style="list-style-type: none"> <li>• Additionally, the site meets the following criteria. It holds particular local significance because of its tranquillity, recreational value and wildlife.</li> </ul>				
<ul style="list-style-type: none"> <li>• Other reason: this is a large area of grassland bounded by hedgerows on the edge of the extensive Walton housing developments. It is important for the communities' well-being, particularly as the SDL will increase pressure on local facilities.</li> </ul>

<b>Location</b>	<b>Post Code</b>	ST15 8QW
	<b>OS Grid Ref</b>	SJ 903 335
<b>Type of protection</b>	Local Green Space & Community Facilities (Destination & Festival Park)	

- NPPF Para 77 Criteria**
- Not with an extant planning permission within which the Local Green Space could not be accommodated
  - Not allocated for development in the relevant Neighbourhood Plan/Local Plan.
  - Additionally, the site meets the following criteria. It hold particular local significance because of its: beauty, tranquillity, historical significance, recreational value and wildlife. Other reasons: the park is used for local festivals by Stone residents, a meeting place for coaches of visitors, a buffer zone and wildlife corridor for Crown Meadow, (Local Nature Reserve), and Southern Meadow, (Local Nature Reserve), and a natural buffer zone between the commercial Town Centre and the residential area of Walton, (Stone)

**Site Description:**

This is a park containing protected pitches and spaces. It also has natural and semi natural greenspaces extending beyond play areas. The Park is identified within Policies CAF1, CAF2, CAF3 & CAF4. Westbridge Park takes its name from Westbridge House which once stood where the park is today, and presumably that name had its origins from being west of the bridge that spanned the River Trent. It is situated between the Trent and Mersey Canal and the River Trent. The park was opened in 1951 as part of the town's Festival of Britain Celebrations and to commemorate the event a pair of wrought iron gates were produced by a local blacksmith. These gates are still there today by the pedestrian entrance to the park. Owned by Stafford Borough Council, facilities include expansive areas of grass, three tennis courts, a local equipped play area for children, a skate park, Scout and Guide buildings, and a fitness centre. It is also home to Stafford & Stone Canoe Club. The lower part of the park has just been seeded with wildflower seed and it is hoped to cultivate a meadow in this area.

It is the venue for many of the town's festivals and events including Festival Week, the Food and Drink Festival, the Town Bonfire and the fair at the end of festival week in June each year. It also offers the opportunity for peaceful walks both in the meadows and along the canal and river, where the adjoining woodland is rich in wildlife.

<b>NPPF Para 77 Criteria</b>		
<ul style="list-style-type: none"> <li>• Not with an extant planning permission within which the Local Green Space could not be accommodated.</li> <li>• Not allocated for development in the relevant Neighbourhood Plan/Local Plan.</li> <li>• Additionally, the site meets the following criteria. It holds particular local significance because of its tranquillity and wildlife.</li> </ul> <p>Other reason: Buffer zone between residentially amenity and flood plain</p>		

**Site Description:**

This open green space is at the end of Chandlers Way where the land falls gently down to the floodplain. It is amenity greenspace which is dissected by a small stream which at its westerly perimeter forms the boundary to the lowest part of the floodplain. This is a recent housing development which would suggest this area is considered unsuitable for further development, however it provides a pleasant vista over towards Trent meadows. Part of the area could be privately owned as one of the end properties have removed the developers' fencing and placed children's play structures in the area.

<b>Site Description:</b>			
<p>The Stone SPP Cricket Club has primary access off Lichfield Road with a secondary access off Priory Road. It is a private members cricket club who are members of the North Staffordshire &amp; South Cheshire Cricket League, affiliated to the English Cricket Board.</p> <p>The facilities include a county standard cricket pitch, which in the past has hosted major games including those between the Minor Counties and international touring teams like Australia and Pakistan. This is supported by cricket nets, car parking, practice areas and a Pavilion. The latter is also used by the community for appropriate events, functions, meetings and charity events.</p> <p>The club is over 100 years old and an integral part of the recreational offer of the town for both playing and spectators. It hosts junior cricket from under 8 to under 19, plus senior cricket.</p> <p>The club contributes to the physical wellbeing and social cohesion of the local community. The ground is held in trusteeship to preserve its restricted function to cricket related activities</p>

It holds particular local significance because of its recreational value, tranquillity and wildlife.</li> </ul> <p>Other reason: Allotments provide important green corridors for wildlife</p>			

**Site Description:**  
These allotments have existed for at least 40 years and contain around 100 plots. The land was previously owned by a private company and had

been donated to the community resulting in the formation of Community Interest Company which oversees the allotments. It is very well tended, and evidences a strong and inclusive community ethos with a communal area for socialising, an area for children to grow produce and an easy access area with raised beds. It was commended in SBC Green Awards 2014 for their 'Community Area'

<b>Type of protection</b>		Local Green Space	

**NPPF Para 77 Criteria**

- Not with an extant planning permission within which the Local Green Space could not be accommodated.
- Not allocated for development in the relevant Neighbourhood Plan/Local Plan.
- Additionally, the site meets the following criteria. It holds particular local significance because of its historic significance, recreational value. Allotments also provide important green corridors for wildlife

**Site Description**

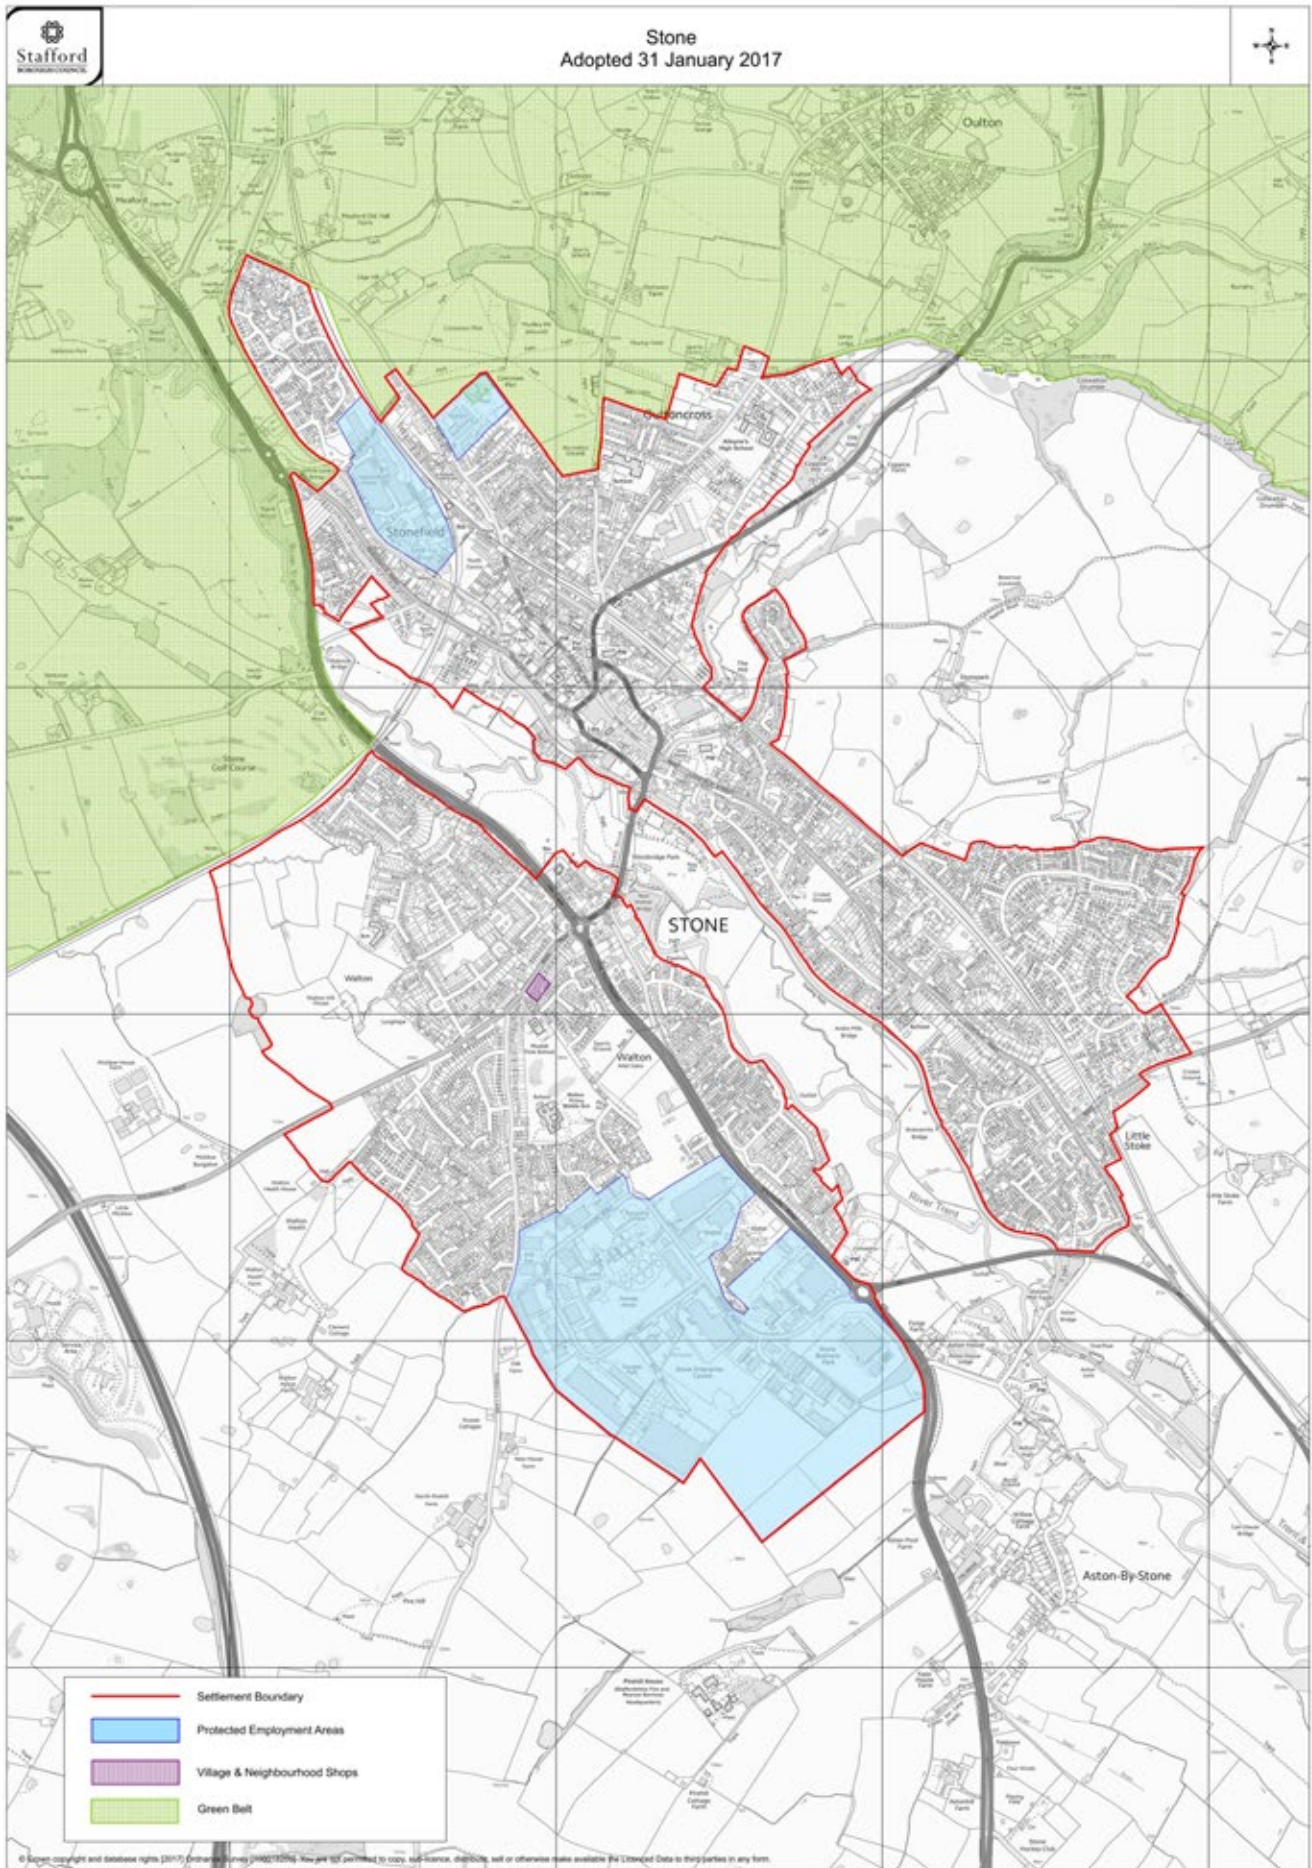

This Local Green Space was once a former bottle tip belonging to Joules brewery and since has been reclaimed to form a community allotment owned by Stone Town Council. The land

forms part of the Conservation Area identified as HUCA 6: "Trent and Mersey Canal" in the Stone Historic Character Assessment (May 2012) and defined as "Market garden and allotment" in its Historic Character Type. The space acts as an important buffer zone for wildlife from the canal to Trent flood plain the south.

# Appendix G – Plan of Stone Settlement Boundary

## Appendix H – Protected Views and Vistas

1. Along the River Trent corridor and flood plain
2. From Stafford Road towards the town centre
3. From Westbridge Park to The Moorings and tower of the Church of St Michael's
4. From Longton Road towards various historic buildings, including the Church of St John
5. From Lichfield Road towards the town centre
6. The Station Approach vista
7. Views and vistas along the Trent and Mersey Canal corridor

Views into the urban area from the A34. The Design and Access Statement that supports planning applications for developments that may affect these views and vistas must demonstrate how the proposal would enhance them.
