Staffordshire County Council (Development Services Dept.)	AM/U7/CP1/0042/5208

CODING OF REPRESENTATIONS

Stafford Borough Council has used the coding detailed in the box below based on advice received from the Planning Inspectorate.

(i) **Soundness test number 1-9**, where the representation is asserting the DPD is unsound, the prefix should be a **U**. Where the representation is supporting the soundness of the DPD, the prefix should be an **S**. This is essential for all parties and especially Inspectors

(ii) **Paragraph and policy** – this prefix is also essential for all parties, particularly Inspectors.

(iii) **Personal Reference number**. This should be used to identify the person(s) making the representation only, and numbering can start at 0001, giving each person, group, organisation their individual reference number.

(iv) **Representation Reference number**. This is used to identify each representation and should start at a substantially higher number than the last reference number for the Personal References. It is useful to add up the total number of Personal References initially and number them 0001-0999 (or higher if necessary) and then number Representation References at a significant higher number, for example 5000.

So far the reference number will look like this :
1(test number) /2.6ENV(para/policy)/0001(Personal Reference number) /5000 (Representation reference number)

Where a representation is in support of the soundness of the DPD (or part of) the reference will look like this:
S/2.6ENV/0002/5001

As part of the coding process a number of further codes have been produced to record the representations received with explanations set out below:

AM   = Additional Material (received by Programme Officer)
HSS1-7   = Hearing Statement Session # (with relevant session 1 – 7)

G   = General comments with no specific Core Strategy DPD reference
P   = Reference to Paragraph Number
CP   = Reference to Core Policy Number
SO   = Reference to Spatial Objective Number
